TOMORROW TO BE LIBERTY LOAN HOLIDAY

NATION AND STATE AFFAIR TO AID THE SALE OF WAR BONDS

**Governors of Virtually All States Have
Proclaimed the Day and Not One
Has Declined to Do So.**

DUBIOUS OUTLOOK FOR REACHING GOAL

Washington, Oct. 23.—Liberty Loan day tomorrow will be a state as well as a national holiday.

Their interest in the day, stirred by a telegram sent out by Secretary McAdoo, virtually all governors have proclaimed the day a holiday.

Responses of residents of the various states to the proclamations have been quick and generous. Arrangements have been made to hold meetings in all parts of the country to urge the necessity of buying Liberty Loan bonds.

Thus far not a single governor has declined to proclaim Liberty day a state holiday in part at least.

Some found it inconvenient to make the entire day a holiday so they made a holiday for the afternoon. Almost every governor who replied to the secretary's telegram added a few words of encouragement for the loan.

The signal for the lighting of liberty fires throughout the country will be given tonight when Mrs. W. G. McAdoo, chairman of the women's Liberty loan committee, lights a bonfire at the Washington monument, using for the purpose a candlestick which once belonged to Napoleon Bonaparte, and containing a trench candle made in Quebec. Faggots to be lighted by Mrs. McAdoo are of wood made from historic places in many states.

Still Far to Go.

The Liberty loan drive entered the second day of the home stretch with treasury department officials far from sanguine that the \$5,000,000,000 will be reached. Their lack of optimism is due to the fact that estimates based on latest official reports of sales and fragmentary unofficial reports indicate total subscriptions of more than \$2,000,000,000 and possibly \$2,500,000,000. The official reports, which up to the close of business on Oct. 20, showed subscriptions of \$1,338,904,900.

Although Liberty Loan day tomorrow is expected to help, officials declare that only the most strenuous efforts can bring the amount up to the

Petrograd, Monday, Oct. 22.—Two German dreadnaughts, one cruiser, twelve torpedo boats and one transport were put out of action by the Russians in the fighting around the islands in the Gulf of Riga last week, but their ultimate fate is unknown, says an official statement issued tonight by the Russian admiralty. It has been established that at least six German torpedo boats were sunk in the fighting. The Russians lost the battleship Slava and a large torpedo boat.

The admiralty staff in its review of maximum sought. An avalanche of dollars was still lagging today on the face of scattering unofficial estimates to the treasury department. Officials were hoping that the \$3,000,000,000 minimum would be reached by tomorrow night, when the heavy anticipated volume of Liberty day sales would be in hand.

shouted: "Stop that or I will do some shooting."

"The threat was enough, the captain dropped his gun, threw up his hands and cried: 'Kamerad! Kamerad!' The men remained perfectly quiet under the cover of my gun until a crowd arrived and they were put under a good guard. The captain seemed furious at his fate but the men seemed enchanted with the adventure."

General De Castelneau and M. Dumesnil, under secretary for aviation, who visited the Zeppelin Sunday morning, congratulated Boiteux on his presence of mind and enterprising courage which preserved the airship which will be a fruitful source of study for French aeronautical experts. He will be given suitable recognition by the government.

The L-49 has five motors of 125 horse-power and four coars, the middle ones of which contain two of the engines and all the levers and instruments. The small balloon had a total capacity of 25,000 cubic meters. The airship was able to make fifty or fifty-five miles an hour. The L-49 was a naval airship of the most recent type, was fitted with all latest improvements and was almost brand new.

PARADE WILL BE HELD

The women of Fort Wayne are not permitted a little thing like a snow-storm to interfere with their plans and the monster parade and bonfire will be held as arranged. Every woman in Fort Wayne with two good feet is expected to take part in tonight's Liberty Loan demonstration.

MANY HERE FOR MEETING

**Twenty-Eighth Convention
of Indiana Federation of
Clubs Convenes.**

**INTEREST CENTERS
IN NEXT PRESIDENT**

**Several Women Prominently
Mentioned to Succeed
Mrs. C. R. Fairbank.**

The twenty-eighth annual convention of the Indiana Federation of Clubs opened in Moose hall, corner of Wayne and Webster streets, Tuesday morning with a fine showing of officers and delegates attending to the preliminaries of a splendid program covering three days.

All officers, except Mrs. C. R. Fairbank, of Fort Wayne, who is closing her second year as president of the federation, and Mrs. Cora F. Goodrich, of Winchester, wife of Governor Goodrich, one of the trustees, were present today. The day was occupied with special meetings of credentials and executive committees, the board of directors and council meetings, the enrollment of delegates and a general discussion of the following topics: 1. "What Has the Vocational School Done for Your City?" 2. "In Which Department of Federation Work is Your Club Most Interested?" 3. "Would Fewer Committees with Smaller Membership Serve the Purpose of the Federation?" 4. "Would a Mid-Winter Meeting of the Chairmen of State and District Committees Be Helpful?"

Already there was much buzzing concerning the probable candidates for the office of president, the term of two years being the limit of office-holding. Therefore, this is the closing term of the present incumbent, Mrs. Fairbank. Three candidates have already been presented in a general way before the clubs of the federation and there is a friendly rivalry between supporters of each with no telling what may come up Wednesday morning when nominations are made from the floor.

Three mentioned for Presidency.

Mrs. Edward Franklin White and Mrs. Ovid Butler Jamieson, both of Indianapolis, and Mrs. John E. Moore, of Kokomo, are names the delegates are already familiar with as possible nominees for president. Possibly Mrs. White has the strongest following as her work as a lawyer is well known and her ability widely recognized. Particularly appealing to many of the delegates, however, is the work of Mrs. White in the state legislature for two

Notwithstanding the war and the Liberty Loan campaign, interest in the municipal election is increasing every day. It is one of the big topics among both women and men. The meetings are being largely attended.

Maurice C. Niezer, democratic candidate for mayor, will speak this evening at the Hanna school, at the corner of Lafayette and Williams streets. Other speakers will be Judge Carl Yaple, of the superior court, and Judge John W. Eggeman, of the circuit court. The appearance of both judges has added interest to tonight's meeting.

Bush Not Coming.

Lieutenant Governor Bush will not be in attendance at the republican meeting scheduled for tonight at the Washington school as advertised by the republican city committee. He is not coming to Fort Wayne.

Two republican meetings are scheduled for tonight at the Washington school and the Bowser barn. Mr. Bowser will preside at the latter place and W. Sherni Cutshall, republican candidate for mayor; Owen N. Heaton and Robert B. Hanna will speak. In addition to Mr. Cutshall, William N. Bellou and J. Frank Munkovian will speak at the Washington school.

As proof of the interest that is being taken in the candidacy of Mr. Niezer large audiences were present at both of his meetings Monday night held at the Lakeside and Rudisill schools.

Paris, Oct. 23.—An attack was made by the French early this morning on the Aisne front north of Soissons. The war office reports that considerable progress was made along the whole battle front and that numerous prisoners were taken.

The statement follows: "This morning at 5:15 o'clock after artillery preparation of several hours, our troops assaulted the powerful German positions in the region of Alcant and La Malmaison (northeast of Soissons.) On the whole front of attack we made

Camp Zachary Taylor, Ky., Oct. 23.—Another shake-up has occurred in the 159th Depot Brigade at Camp Zachary Taylor. Another time the 17th battalion weighed out correctly and remained on top of the sifter and saved itself a fall through the screen.

Many of the battalions were broken up after the majority of the personnel had been transferred to Hattiesburg. The Nineteenth battalion, composed of fourteen officers and 127 men, were transferred to the Seventeenth battalion.

It might be explained that when a company of men or battalion of men are transferred the non-commissioned officers are "busted." In other words they are reduced to privates. In escaping being transferred the men from Fort Wayne who had arrived at the point where they were made non-commissioned officers consider themselves extremely fortunate.

During the past week more Fort Wayne men have advanced a step on the ladder of ranks in the army. Nearly all the men who were not transferred to Hattiesburg have landed a non-commissioned officer's job.

The promotions are: Corporal Emmet C. Rohyans and Corporal Edward J. Harkens have been promoted to the rank of sergeants; Privates William J. Vesey and Justin Sherrod, ser-

New York, Oct. 23.—A British tank, similar to the giant war machines of this character in active service in France, reached this port today on a steamship from Europe and will be set up here as a companion exhibit to the German submarine which recently arrived, to stimulate liberty bond purchasing. The tank was lashed on the forward deck of the steamship, being too large to be placed in a hold. A British army officer and eight men were in charge of it during the voyage.

SPELLS DOOM FOR ZEPS AS TERRORS

Washington, Oct. 23.—Germany probably lost one-half of her total effective fleet of super-Zeppelins as a result of the raid of October 20 over England, according to official cablegrams received here.

All France is exultant over what the dispatches declare has been the greatest defeat administered to an air fleet since the beginning of the war. The gratification is more intense because it is now known that the German raid was an attempt to carry out a fearful threat of vengeance made four days before.

On that occasion the German government sent out a warning to both France and England of dire punishment to follow what the Germans declared to be unwarranted and inhuman attacks by British and French aviators upon peaceful German towns.

**Y. M. C. A. OFFICERS
SERVE ANOTHER YEAR**

**Personnel of Leaders Not
Changed at Meeting
Monday.**

The officers who have been serving the local organization of the Y. M. C. A. so faithfully for the past year have been retained for the next year. A resolution was adopted continuing in office the present members and officers of the central board. They are as follows: E. E. Griest, president; B. Paul Mossman, vice president; R. H. Mauk, recording secretary; Theodore Wentz, treasurer; S. F. Bowser, W. N. Ballou, J. E. N. Dillon, S. W. Lenfesty, W. E. Mossman, A. H. Perfect and M. S. Willson. Also the following trustees: S. F. Bowser, chairman; B. Paul Mossman, vice chairman; E. E. Griest, P. H. Doty, B. H. Hudson and Judge O. N. Heaton.

The report of the treasurer showed that of the \$341,578.83 subscribed, \$169,020.31 had been paid, leaving \$171,792.02 to be collected. Three thousand, five hundred and forty-five subscriptions have been paid complete to date, and the association has a balance of \$4,547.33 after payment of all debts to date.

President Griest in his report told of the progress that had been made on the new building that is being constructed on the site of the old Hope hospital. He also spoke of the activity of the directors on the various patriotic and civic affairs, and in the Y. M. C. A. war work drive. S. B. Bechtel was appointed chairman of the city committee of management and O. E. Maxwell chairman of the railroad department. At the meeting Monday night it was decided to keep the two local organizations of the Y. M. C. A. separate, but that all work should be directed from the new building. According to the report of Mr. Maxwell the railroad department enjoyed a prosperous year.

A sad feature of the meeting was the vacant chair usually occupied by James M. McKay, a life long friend and member of the board of trustees and central board. A resolution was adopted by the meeting and sent to the family of Mr. McKay in permanent form.

Buffalo, N. Y., Oct. 23.—Federal secret service agents reported to Washington the discovery in a Buffalo warehouse of millions of pounds of sugar in bags and barrels labeled "top crust flour." Notations on the packages, it was said, indicated that the sugar had been coming into the warehouse over a period of several months. A federal agent who made a survey of the contents of the building estimated the amount of sugar at 150 carloads, or about ten million pounds. Around immense piles of sacks containing the sugar the federal agent said, he found a screen of other articles while some of the containers marked "top crust flour" actually had flour sprinkled over the outside.

Fort De la Malmaison, the German stronghold, which baffled the French in last spring's attack, barring their way to the westerly end of the Chemin des Dames, is apparently one of the immediate objectives of the offensive. For days past the big French guns have been hammering this front heavily, both the Paris and Berlin reports indicating that some major movement was in preparation. Good progress was reported early in the day by Gen. Petain, the French forcing their way forward along the whole front of the attack. The taking of Fort De la Malmaison would materially aid in the pushing of an attack on Laon, in as much as it would turn the German line in this region, although it had been considered the plain blow in such an attack would be struck further to the east, where the back door road to Laon offers superior tactical advantages.

Virtually all the ground gained yesterday's offensive in Flanders has been retained by the entente forces.

SHOP AND RAILROAD NEWS

LIBERTY BOND DRIVE AT THE G. E. WORKS

Beginning of Event to Be Announced by Screech of Whistle.

The prolonged screech of the great siren mounted on the top of building No. 19 of the General Electric company's plant will announce to the employees tomorrow morning that the great drive for the sale of Liberty Bonds is on. The sale will open promptly at 8 o'clock and the team captains are very optimistic, believing that the quarter million mark will be reached this time. Appreciating the value of their investment, aside from the patriotic standpoint, most of the earlier investors will purchase a second bond, and those who did not embrace the first opportunity to buy have been brought to the realization of their error and will this time assist in the great cause, for as one man expressed it, a soldier gives his life which he cannot get back, but I can get my money back and with interest.

The result of the campaign will be posted on a mammoth score board, mounted in McCulloch park, at the close of the day, and also at 4 and 6 p. m. on smaller boards throughout the works. The results will be given in averages rather than totals from a standpoint of fairness to all departments.

Reproductions in miniature of the standard military rifle cartridges, together with a small pamphlet describing lucidly the number of lives saved by one Liberty Bond alone, will be distributed to the employees tomorrow morning as souvenirs of the campaign.

Mr. R. B. Hanna, Rev. Folsom, H. H. Hilkman, A. E. Thomas, Charles Niezer and Judge Eganman today again spoke to the men and women on the bond issue and the necessity for its support.

WESTERN GAS BICYCLE PLANT. The Western Gas Construction company's works is a very busy place at the present time and the different department heads are continually adding to their forces. Following is a list of new employees: Walter Noll, Philip Hartman, C. Gebhard, Frank Dahms, Edward Dahms and George Tolin having been added to the moulders force and A. Kynke and Karl Hammer to the coremakers force.

BOWSER EMPLOYEES ARE PATRIOTIC

Have Miniature Pageant Through Factory in Big Liberty Loan Drive.

The Bowser employees this morning witnessed a pageant of their own when a body of Red Cross girls marched through the big plant to aid in making the second Liberty Loan campaign a greater success than the first one. Each girl carried a banner bearing an appeal to the employees to purchase Liberty bonds, and they were read by the employees, who in return showed their patriotic spirit by applauding the girls. A banner carried by one of the girls reading, "The Kaiser Will Be Weissen after the Second Liberty Loan," was the center of much enthusiasm among the workmen. The Bowser employees, who have shown their loyalty in the first Liberty loan, have set their zeals to make the second one a greater success, having sold \$12,000 worth of bonds in fifteen minutes yesterday.

SHOP CLERKS ARE HOLDING MEETING

Come Here from Division Points on Pennsy to Discuss Office Work.

C. N. Brentlinger, chief motive power clerk of the Pennsylvania Northwest system, called all the division chief shop clerks on the system here today for a conference, which is being held in the office of Superintendent of Motive Power T. W. Demarest. Mr. Brentlinger is presiding and among those in attendance are the following chief shop clerks: J. H. Hobcock, of Fort Wayne; Henry Weschler, of Chicago; J. A. J. Good, of Allentown; H. J. Campbell, of Mahoningtown; W. Winter, of Crestline, and Mr. Scheuman, of Wellsville. The meeting will probably close tonight.

WABASH BOOMING BOND SALE

Committee Put Intensive Campaign in Operation Today.

The Liberty bond campaign inaugurated on the Wabash road last week is taking on more activity and interest today. The plan, which has the backing of the company, is similar to that of the Pennsylvania and the Nickel Plate, allowing the subscriber to pay for bonds at the rate of 10 per cent each month if desired. On the road the four brothers, the O. R. C. E. R. T. B. L. E. and the L. F. E. have committees out soliciting for the campaign, while the shops and round house are being solicited by the men representing the various crafts. They are L. D. Miller, of the machinists; F. J. Schwanz, of the pipe fitters; E. Seibold, of the electricians; Eugene Jehl, of the blacksmiths; and Henry Koenig, of the carpenters and car repairmen. These committees will in turn report to Chief Clerk Oscar Rohrbach, who will forward the applications to L. G. Scott, of St. Louis, the company's controller. Most of the departments will make a 100 per cent record. The \$50 bond seems to be the favorite, but some are taking \$100 bonds, while a few are taking bonds of greater denomination.

ELEX CLUB TONIGHT

Girls Arrange a Fine Program for Their Party.

If the weather will permit the big demonstration and parade of the women of Fort Wayne in the interest of the Liberty bond campaign tonight, the Elex club will join in full force before opening their annual party and entertainment in the third story of building No. 19, which is scheduled to begin promptly at 8 o'clock. The club has been at great pains to make a little expense to the party and they expect a big attendance and a most enjoyable time. As stated by The Sentinel an amusement and educational program will feature the early part of the evening, followed by a "feed" composed of coffee, sandwiches and other good things, prepared by the committee selected for that purpose. An interesting feature of this part of the program will be the method of preparing the viands, which will be accomplished on electrically heated utensils operated by the ladies. Considerable interest centers in the slight-of-hand performance of LaDelle, famous for his wonderful tricks. The committee held a meeting yesterday morning and completed the arrangements for the party.

PASSES \$110,000 MARK.

Western Division of Pennsylvania Still Buying Bonds.

Up to 6 o'clock last night the sale of Liberty bonds on the Western division of the Pennsylvania had reached \$110,000. It is known that there are a number of others ready and anxious to buy, but have not been given opportunity and Supt. Otto Schroll, Master Mechanic E. E. Griest, Trainmaster C. L. Hamilton, Division Engineer Guy Scott and others, who are pushing the campaign, believe that the sum total on the division will be very near, if it does not exceed, \$125,000. At 6 o'clock last night the amount of the subscriptions in the shops had reached \$70,000. The last sale it was slightly over \$60,000.

GOOD TIMES TO COME FOLLOWING THE WAR

Howard Elliott Predicts Greatest Prosperity in U. S. History.

Chicago, Ill., Oct. 23.—"I believe that after the war is over we are going to see the greatest business in the United States that we have ever seen. It may not come the first year, but it is coming."

This prophecy is made by Howard Elliott of the Railroads' War Board. "The movement of putting all the railroads in the country under this so-called war board," continues Mr. Elliott, "is of interest in another way than simply in its aspect of giving a higher efficiency for the use of the people of the United States."

"Some say that the putting together of the railroads the way we have this year is an argument in favor of government ownership."

"I do not agree with that. I think it means that the splendid initiative of the American business man, that has built up this great transportation system that today is doing 30 to 35 per cent more than it ever did before, even under the complicated conditions that confront us—it means that the initiative of the American business man, if not to much fettered by small and nagging restrictions, can do more for the expansion of American business and the expansion of the country than we could possibly obtain under government ownership."

"I say this because that is one of the great problems that very likely will develop out of the war, those who depend on a successful transportation system are the men who will have to help decide that great question by such views as congress gets from its constituents all over the United States."

RUN DOWN BY AUTO.

Machinist Henry Starke Victim of Painful Accident.

Henry Starke, machinist in the Pennsylvania shops, sustained painful injuries and came very near being killed at 6:45 o'clock this morning, as he was riding his bicycle through the Calhoun street subway. He met an automobile and made an effort to pass it, but the driver of the machine crowded him to the curb, where he fell in such manner that, those who depend on a successful transportation system are the men who will have to help decide that great question by such views as congress gets from its constituents all over the United States.

LIBERTY BOND DRIVE AT THE G. E. WORKS

Beginning of Event to Be
Announced by Screech
of Whistle.

The prolonged screech of the great siren mounted on the top of building No. 19 of the General Electric company's plant will announce to the employees tomorrow morning that the great drive for the sale of Liberty Bonds is on. The sale will open promptly at 8 o'clock and the team captains are very optimistic, believing that the quarter million mark will be reached this time. Appreciating the value of their investment, aside from the patriotic standpoint, most of the earlier investors will purchase a second bond, and those who did not embrace the first opportunity to buy have been brought to the realization of their error and will this time assist in the great cause, for, as one man expressed it, a soldier gives his life which he cannot get back, but I can get my money back and with interest.

The result of the campaign will be posted on a mammoth score board, mounted in McCulloch park, at the close of the day, and also at 2, 4 and 6 p. m. on smaller boards throughout the works. The results will be given in averages rather than totals from a standpoint of fairness to all departments.

Reproductions in miniature of the standard military rifle cartridges, together with a small pamphlet describing lucidly the number of lives saved by one Liberty Bond alone, will be distributed to the employees tomorrow morning as souvenirs of the campaign.

Mr. R. B. Hanna, Rev. Folson, H. H. Hilleman, A. E. Thomas, Charles Niezer and Judge Eickman today again spoke to the men and women on the bond issue and the necessity for its support.

"FOR KAISER," LOSE JOBS.

**Two Portland Men Discharged for Al-
leged Pro-German Attitude.**

Portland, Ind., Oct. 23.—The de-
claration, "I'm for the Kaiser," alleged to
have been made by Roy Layman and
John Layton, employed at a popcorn
stand, has cost them their jobs.
Layman and Layton are alleged to
have made the remark last Friday, in
the presence of a score of witnesses.
The report soon spread, and when the
members of the council of defense
learned of it they asked Clyde Stagg,
the men's employer, to discontinue them,
which he did.

It is alleged the two men have been
pro-German for some time, and that
they gradually have become more pro-
nounced in their attitude against the
United States. The case has been re-
ported to the government authorities.

COAL OBTAINED AT PERU.

Peru, Ind., Oct. 23.—The coal short-
age in Peru was somewhat reduced
today when three dealers were sup-
plied with two cars of Virginia and two
of Illinois coal. A few days ago two
other carloads of coal were obtained
and many of the dealers say they have
carloads of coal on the way. City au-
thorities say that they have obtained
the recent shipments of coal which are
being unloaded. Arthur Herron, su-
perintendent of the electric light plant,
says he will soon have an abundance
of coal for the city's light and power
system, and that Peru will not be in
darkness in the future on account of
coal.

Vol. LXXXIV.....No. 21

TUESDAY, OCTOBER 23, 1917.

SHOW HIM.

Germany has just floated her seventh war loan. The kaiser congratulates himself and his people that it has been a signal success. We on this side have no means of knowing how much of a success that seventh loan has been. It may have fallen short of both needs and expectations for anything we are likely to find out. Skeptical reflection may be well warranted.

But there is something we of America can do that will be much more to the point than cherishing doubt of the success of the German war loan. We can make our own second Liberty Loan so massively a success that it will not greatly matter how things fell out with the kaiser's recent loan. A five billion dollar subscription to the second Liberty Loan will be the strongest and most impressive answer America can make to the kaiser's overflowing joy at the success of the seventh German loan.

It is up to the people of America to show William Hohenzollern that this nation and its people are not in this war on a bluff, as he and his kind have been fond of believing and have exerted themselves with untiring diligence to convince the deluded people of Germany. A five billion dollar subscription to the second Liberty Loan will be of as much consequence as an Anglo-French drive into the kaiser's battle lines.

From the beginning of Prussian insult and outrage and violation of American dignity and honor and peace the Prussian war caste believed that Americans were too fat and well-fed and rich and devoted to money-making and submerged in prosperity and weakened by ease to care much what might be done to them and their national honor if only they were not molested in their grubbing for gain. They thought we would not fight. They believed we could not fight if we would. They held that we were a nation incapable of war. They nursed the delusion that our people would not support the government in war.

The Prussian king and the Prussian war caste themselves now know better, but they are not yet sufficiently convinced. The German people, the great masses of the kaiser's subjects, have not been permitted to know what is going on in America. They do not know that our navy is the factor that has worked so effectively against the German submarine campaign of ruthlessness. They do not know that we are training a million men to go over against the kaiser's armies and that back of this million are millions more who will be ready to go when needed. They do not know that already we have laid all the plans for the expenditure of more than twenty billions in our first year of the war.

The people of Germany do not know all of these things, but one way and another they are beginning to find them out. Sooner or later they will know. Their rulers know it now. The subscription of five billion dollars to the second Liberty Loan will sooner or later get to the people of Germany and it will hasten the spread of popular wrath against their wicked and despotic rulers, who have brought almost the whole world in arms against their country. But the kaiser and his war-friends will know at once about the success of the second Liberty Loan. It is highly important that the kaiser and his advisors understand how thoroughly American spirit has gone into the war and how tremendous are the resources that are now completely enlisted against them.

Buying Liberty Loan bonds is the one patriotic war service that does not impose hardship or sacrifice upon the people. It is donating nothing, giving nothing, losing nothing. It is merely lending your money to the government and on the best security that the world knows. There are some who may for a time have to practice small economies in order to make

payment on bonds, but these very economies are of the sort that in these times should be practiced as a rule. When the bond is paid for the purchaser will have saved money equal to the face of his bond and will have it in the form of an investment which is as secure as the land itself and will pay him a good rate of interest for many years. The investment will not in any way be taxable for national, state or municipal purposes and the interest paid on the bond will be net income.

Buy bonds and help your government. Buy bonds and make your country safe. Buy bonds and show the kaiser—for than now there will be no better time to show him.

THE PEOPLE ARE FOR IT.

The people of Fort Wayne, not excepting some hundreds who do not patronize it, are in favor of the maintenance and expansion of the municipal lighting system. This is the fact because there are few people in Fort Wayne so dense of understanding that they do not appreciate what the value of this public institution has been and will be to them.

It is calculable how many hundreds of thousands of dollars the municipal lighting enterprise has saved to the pockets of the people of this city—patrons of the opposition no less than patrons of the city lights. It is not calculable how many millions of dollars it will cost the people of Fort Wayne if the city electric lighting enterprise were to be subjected to policies of depreciation and ultimate ruin. Private lighting enterprises are established and maintained primarily to make money. Municipal utilities are established and maintained to render the best possible service at the least possible cost.

Without the entrance of the municipal lighting enterprise into this field the old franchise rate of 10 cents would still prevail and the people would be paying one-third more for their domestic current than they now pay. If the bill that was prepared last winter for the relief of the Fort Wayne municipal lighting department had not been strangled the people of Fort Wayne would today be paying one-seventh, certainly, and almost one-third, possibly, less than the rates the city is forced by the public utilities commission to charge for current. The city is able to reduce the rate to consumers, but it is not permitted to reduce it, because the competing interest objects.

If Mr. Niezer is elected mayor of Fort Wayne he will make it the object of his most energetic efforts to get the obstructions removed that prevent the people of Fort Wayne from enjoying the full benefits of their own enterprise. He will fight for that and fight hard.

Will Mr. Niezer's competitor pledge himself to such a battle for the freedom of the city lighting enterprise from the trammels that today prevent the lowering of electric lighting rates to the people of the city?

The great body of the voters of Fort Wayne ought to find out about these things now. After the election it will be too late to find out what this candidate or that proposes to do in the event of his election.

Let no mistake be made. The interests that are opposed to the city lighting enterprise, that are opposed to lower lighting rates and have fought and will continue to fight them, are not supporting Mr. Niezer. They are supporting Mr. Cutshall. Why?

The influence that was strong enough to procure the death of the lower rates bill in the legislature is doing its utmost to bring about the defeat of Mr. Niezer and the election of Mr. Cutshall. Why?

Where are your interests, Mr. Average Householder, whose lighting rates are of material concern? Who stands for your best welfare and interest—Mr. Niezer or Mr. Cutshall?

A PRIVILEGE AND A DUTY

"U. S. A. Preferred."
That is a Liberty Bond which is not only your privilege but your duty to buy. It is a duty that every man should regard as the highest privilege.

All of us cannot serve in the ranks of the army, but every man and woman with a spark of patriotism in his or her soul, such as marked the men who penned the Declaration of Independence when they pledged "our lives, our fortunes, and our sacred honor," can serve in this glorious cause—contribution to the Liberty Loan.

Has the value of a Liberty Loan Bond been considered by you? It is better than cash in your pocket; it will do more for you than actual dollars. The bond is worth its face value; it can be borrowed upon practically up to its full value; it can be sold above par; and if held by you it will pay you 4 per cent interest. Money in your bank will not do that.

Think of the honor of being a stockholder in the biggest co-operative organization in the world, the United States of America. Honor, duty, privilege—all are his who buys a Liberty Bond; and you have the profit, too.

It is the "U. S. A. Preferred."
-If you can't serve in the ranks of the army you can at least aid the government to support those who represent you on the firing line. Do you know what a \$50 bond will do? Consider: it will—
Buy three Springfield rifles, complete.
Buy 1,500 rounds of ammunition, enough to supply sixteen soldiers going into battle.
Buy ten new rifle barrels to replace those worn out.

Pay one soldier for seven weeks.
Feed one soldier five months or a company of 150 enlisted men one day.
Equip one soldier with clothing complete for a three year enlistment period.
Keep clothing of one soldier in repair and replace worn-out clothing for two years!

"Fare, please! All the glad ones, and the sad ones; all the good ones, and the bad ones—get on here!"

"I USED TO WEAR A GOWN OF GREEN."
I used to wear a gown of green
And sing a song to May,
When apple blossoms starred the stream
And Spring came up the way.

I used to run along with Love
By lanes the world forgets;
To find in an enchanted wood
The first frail violets.

And ever 'mid the fairy blooms
And murmur of the stream
We used to hear the pipes of Pan
Call softly through our dream.

But now, in outcry vast, that tune
Fades like a song a little star
Lost in an anguished judgment day
And scarlet flames of war.

What can it mean that Spring returns
And purple violets bloom,
Save that some gypsy flower may stray
Beside his nameless tomb!

To pagan Earth her gown of green,
Her elfin song to May—
With all my soul I must go on
Into the scarlet day.

Is It Worth It?

LIBERTY LOAN GOES TO HELP PEOPLE WHO HATE WAR AND WOLFISHNESS

HERBERT QUICK,
Member of the Federal Farm Loan Board.

War is not our business. We hate it. So does France. So does England. "The irony of it," said many a French soldier as he marched to the front, "that we, with all our culture and learning and civilization, must go into the trenches and fight like savages."

The British people for months could scarcely believe that they must go down to this foul death; and how they went, and how they are fighting. War is not their business, either.

But war is the German's trade. Through all the years of which Germany brags as years of peace, there was not one single moment of real peace. It was all a preparation for this damnable thing they have forced upon us. The Liberty loan goes to help the peoples who hate war, and to defeat the ones who even in peace times are merely lying in wait like tigers for the chance to spring.

Just before the German war broke out, there came to an Ohio town a godly young German student who wished to prepare himself for the ministry in an American theological school.

The German war broke out, and he was forced to stay in America. I suppose he is here yet. One day he was taken by an American friend to a moving picture theater, and there was suddenly thrown on the screen a reel of pictures of the fight of the Belgian refugees before the German invasion.

The godly young German gazed on it as if fascinated. He saw women and children before the German storm in a great wave of human debris; little children peering into strange faces for lost parents; mothers weeping for lost children; every human derelict so recently a citizen, with a home, a trade, a husband or a wife, a parent

or a child, a sweetheart or a lover. The awfulness lay as much in what these people had been yesterday as in what they were today; that quiet and peace as compared with this anguish and desolation.

It must have seemed to this godly young German divinity student the reproduction of the vision of Isaiah. Perhaps he recalled the terrible text: "For it shall be that as wandering birds, as a scattered nest, so shall the daughters of Moab be at the fords of Arnon;" or this, perhaps, still more awful in its application, such things as the German enslavement of Louvain and Dinant. "Every one that is found shall be thrust through; and every one that is taken shall fall by the sword. Their infants also shall be dashed in piece before their eyes; their homes shall be spoiled and their wives ravished."

His friend felt a deep embarrassment to have thus brought the godly young German divinity student to a place where the disgrace of his country was thus openly displayed. But he need have given himself no uneasiness. The godly young man was not ashamed. The tears in his eyes were tears of true German pity at the work of the German god; for he turned to his friend with the joyful whisper, "Oh my friend, war is Christ-like! War is Christ-like!"

Shameful perversion of people's souls! He was a good young German in the fashion of 1914, and therefore he had to believe that war is a good thing in itself.

This is the wolfishness against which we fight in this war; and we fight alongside the nations which hate war but are forced to fight wolfishness. The world cannot be again as it was, half democratic and half despotic. It must be all one or all the other within fifty years. We fight to make it all democratic.

The world, outside the Central European confederation, is beginning to realize that few activities of national life in any country can be said with certainty to be free from the taint of German intrigue, and whilst it is hard to imagine that the world has anything to learn about this intrigue, still every additional uncovering of means and methods is an additional security for all concerned. In this particular instance the German propagandist has gained his particular object, the submarine U-293 has escaped from Cadiz; but if the incident provokes in Spain that firm-handed dealing with the whole question which is so urgently needed, the account between the two nations will show a very large balance in favor of Spain and the Allies.

MUST HAVE A VICTORY.

(Philadelphia Record.)

As there are no victories for the Germans on the western front, it is barely possible that a victory on an island in the Gulf of Riga is better than nothing. Anything on the western front by transferring troops thither from the Gulf of Riga that really

seem to be the thing to do. Of course, it may be that the Germans are so far outnumbered that abandoning Russia and concentrating on the western line would not afford any military successes with which to pacify public discontent, but in that case the end can not be materially deferred by pretended demonstrations against Petrograd.

NOT A RICH MAN'S WAR.

(Crawfordsville, Ind., Journal.)
The new revenue bill just passed by congress should go far toward silencing that class of trouble-breeders who have been going about whining that this is a rich man's war; that is, that he is the one who is promoting it because of the great advantages that will accrue to him. Of course, that is not the best hit in the way of war taxes which La Follette is supposed to have will repeat this abominable untruth what can you expect of the thousands of ignorant people who make the same charge? La Follette should have known better; rich men have been the hardest hit in the way of war taxes and their sons have enlisted just as the sons of the poor men. No discrimination has been shown. Only this week an Indiana rich man, Dan Reed, gave nearly \$200,000 to purchase a field hospital outfit; this is only one of the hundreds of big gifts of war taxes have been taxed for this war as they have never been taxed before. Rich men have dropped their work to assist the government; they have done it uncomplainingly; let us be honest enough to give them proper credit for what they have done. Don't lie about it.

EEL RIVER BAPTIST CHURCH DEDICATED

More Than 1,000 People Attended the Exercises Last Sunday.

(Special to The Sentinel.)
Columbia City, Ind., Oct. 22.—Over 1,000 people attended the dedication of the new \$14,000 Eel River Baptist church Sunday, several people being present from this city. The speakers for the morning, afternoon, and evening were Rev. Carlos Dinsmore, state superintendent, and Rev. E. G. Huntington, district field worker. By the time the last meeting was closed, more than the \$7,800 outstanding on the building as a debt had been subscribed. The new structure is of seal-brown brick, amply arranged for 600 persons, and with a basement, modern lighting system and fine art glass windows. The pastor of the church is Rev. J. W. Bradbury, of Churubusco.

Columbia City Brief Notes.
A. T. Baker, of this city, has learned from his son, Leman Baker, that he passed successfully the examination for entrance into the aviation corps at Itasca, N. Y., where he went on an eight-day furlough from Camp Taylor, Ky. Baker will return to the camp and await orders sending him to some aviation school.

Mrs. James Colchin and daughter, Clara, left for Auburn Tuesday to attend the funeral of the former's nephew, Ralph Kinney, 32, who died in Toledo, his home, Sunday evening. The Boy Scouts sold \$3,150 worth of Liberty bonds in the city on their Saturday drive, according to an announcement made Monday by Scoutmaster John T. Clapham, and the largest single subscription was \$500. Their work closes Thursday evening, when the totals will be announced.

S. Lorber and family and Mr. and Mrs. Mose Strouse spent Sunday at Indianapolis with Edward Lorber and Dalph Strouse, who obtained an over-Sunday furlough from Camp Taylor, Ky.

Still remaining as pastor of the Zion Lutheran church in this city, Rev. H. C. Jungkuntz Sunday preached his farewell sermon at the St. John's united church southwest of the city, and next Sunday installs as pastor of the church, united from the former St. John's and St. Peter's congregations, Rev. Walter Klausung, former assistant professor of Concordia college, Fort Wayne. Rev. R. A. Helms delivered his farewell sermon at the English Lutheran church in the Eberhard settlement Sunday and next Sunday preaches his last sermon at the Funk church south of South Whitley. Rev. Helms goes to Butler, and no successor has been named for the local circuit.

Paulding Shaffer, aged 3, foster-son of Mr. and Mrs. Philip Rouch, received badly punctured lips and lacerations of the nose when he fell against a step Sunday while playing, and Dr. Ben Lindvall was called.

Mrs. Anna Hildebrand and sister, Miss Sarah White, and the former's sons, Thomas L. and Edgar Hildebrand, motored to New Haven Monday to attend the funeral of Roderick White, brother of Mrs. Hildebrand and Miss White.

Warren Souder, arrested Saturday evening for drunkenness, is now laying out a \$11 fine in the county jail. He was tried before Mayor Frank L. Myers Sunday.

Not enough interest seems to have been manifested in the Red Cross sewing work in this city, and the chairman of the committee, Mrs. David Grund, who is willing to put in as many afternoons as possible to make Columbia City a factor in this work, hopes for a much larger attendance.

Boyd Logan, son of Mr. and Mrs. Hugo Logan, of this city, has made the college place club at the University of Michigan, where he is a freshman. Only 250 tons of coal are on hand at the city power, light and water plant and steam exhaust plant, and firms handling orders for the city of Columbia City write they are unable to get further coal supplies. Several cars of coal destined for Columbia City are now enroute "somewhere," but they do not look promising for arrival, and Supt. Frank Schultz fears current may be shut down at 9 or 10 o'clock in the evening, to be resumed in the morning. It requires about twelve tons of coal daily to heat the municipal plant, and the present supply will last less than a month.

Dale, 6-year-old son of Mr. and Mrs. Dorsey Geist, of Tunker, died Monday afternoon at 1:40 o'clock following a short illness from sugar diabetes. He leaves his parents and three sisters, Fern, Vera and Imogene.

Dr. Frank Brand, of Knox, son of Postmaster and Mrs. J. W. Brand, of this city, has reported to Camp Rantoul, near Champaign, Ill., an aviation camp, for duty as first lieutenant in the dental surgical corps.

H. B. Easty, of near Roanoke, is perhaps fatally ill with a growth on the interior of the skull that has affected his left side. He will be taken Wednesday to Fort Wayne for examination by a specialist in the hope that the growth may be removed and his life saved.

De Foe Mosher has been certified for war service to the district board by the Whitley county exemption board.

WILL HONOR MISS WILSON.

Montreal, Oct. 22.—Miss Margaret Wilson, daughter of the president of the United States, will receive official civic recognition on the occasion of her visit to Montreal on Thursday to sing in aid of the Red Cross fund and she will be presented with a silver loving cup and a bouquet of flowers. Mayor Martin today ordered the Stars and Stripes be flown from the city hall in honor of Miss Wilson.

AT THE MAJESTIC

"The Katzenjammer Kids" Cartoon Musical Comedy, Today, Matinee and Evening.

Gazolo, Gatts and Clifford, the producers of "Katzenjammer Kids," the newest song, dance, fun and girl show, made from the original comic supplement cartoons, were fortunate in locating the right players to portray the animal characters that appear in their big spectacular production. The actors who portray the bear, the goat, the dog and the tiger in "Katzenjammer Kids," are considered the most valued members of the company because pantomime players who can give correct impersonations of the actions of animals are very hard to find.

"The Katzenjammer Kids" are at the Majestic for two performances—today, matinee and evening.

"Good Gracious Annabelle" at Majestic Wednesday Evening.

In "Good Gracious Annabelle," Arthur Hopkins, the producer, has sought to give a discreet, modulated and swiftly moving performance. His success has come through appreciation of the taste of American audiences—a taste for fresh ideas against novel backgrounds. The special stage settings were designed and painted by Robert Edmund Jones.

"Good Gracious Annabelle" is from the pen of Clare Kummer, the much discussed American playwright, who gained fame in the writing of this comedy, although it was her first attempt at this new field.

The play follows the fortunes of the woman of the title "Annabelle" in various crisis seven years after she left her "cave-man" husband, a few hours after marriage. These crisis are interspersed with brightly talk, and the persons portrayed are real characters of every-day American life, and not mere puppets of farce. The parts are distributed through an "all-round" cast which includes Isabelle Lowe, as Annabelle; Lydia Dixon, as Lottie; John E. Trevor, as the cave-man; Ralph Bunker, as the Long Island millionaire.

AT THE PALACE

KEEPS FIT FOR ARMY.

James Lichter, at Palace, Expects to be Recalled Soon.

In the expectation that he will be recalled to the training camp at Sea Girt as an instructor, James Lichter, who spent three months this spring and summer in the camp instructing recruits in the fundamentals of the manual of arms and the maneuvering of companies, is keeping himself fit by long walks and constant practicing of the manual himself. He is appearing at the New Palace in a pantologue, but every-morning finds him "on the road" doing a stretch of six or seven miles, so that when his call comes he will be ready to start right in where he left off. He starts a squad of actors and stage employees drilling in every house he plays in and has done recruiting work all over the country. Incidentally Mr. Lichter is of German parentage.

The hit for the first half of the week is a speedy one. Herbert Clifton, one of the pets of the big cities, is doing his absurd female impersonation in which he employs a wonderful falsetto to good effect. A troupe of five men and a girl stage an Hawaiian medley of song-instrumental numbers and the hula hula. Alfred Lattell, the animal actor, assisted by Elsie Vokes, is doing a dog impersonation that is a riot. George Bobbe and Eddie Nelson, two singing funsters, that can sing and are funny, are a welcome relief from the ordinary vaudeville team.

SOCIETY

Mrs. Howell C. Rockhill gave a luncheon of very lovely appointments at the Country club today to honor Miss Nellie Wilt, a bride-to-be of the week. The table was laid for fourteen and the decorations were exquisite arrangements of pink roses, rubrum lilies and ferns which filled a French basket in the center of the table. There were corsages of roses and lilies for each guest.

Mr. and Mrs. A. J. Vesey, Mrs. Will Vesey and Mrs. John Vesey have returned from a trip to Camp Taylor, Louisville, to visit Will Vesey.

Mr. and Mrs. Herbert Wills and son, of East Sutherland street, have returned from a week's visit in Detroit with Mr. and Mrs. Harry Austin, former residents of this city.

Hayes-Kuntz

One of the prettiest weddings of the month was that of Miss Ruth Gertrude Kuntz and Mr. Tom Hayes, which took place in the Cathedral of Immaculate Conception at 9 o'clock Tuesday morning. Rev. John R. Quinlan officiated at the nuptial mass. The bride entered with her uncle, Mr. Frank Bougher, and was attended by a sister to the groom, Miss Loretta Hayes. The groom was attended by Mr. George Kuntz, the bride's brother. The ushers were Mr. Frank Mills and Mr. Arthur Degitz. The bride presented a lovely appearance, her wedding costume enhancing the sweetness and beauty of her face. The bride wore a brown chiffon velvet suit with blouse of brown georgette crepe trimmed with gold lace and having a touch of turquoise satin under the crepe. The bride's hat was a combination of brown and sand color velvet with ostrich feather trimming to match the crown of sand velvet and she wore a corsage of sunburst roses and orchids. Miss Hayes looked very handsome in a gown of peacock blue crepe de chine trimmed with silver and moleskin and having modish chiffon sleeves of blue. Miss Hayes' hat was made of velvet and moleskin to match her gown and trimmed with silver lace and a pink rosebud to brighten it and she carried a bouquet of Orphelia roses. The wedding breakfast was served to thirty people at the home of Mr. and Mrs. Bougher in Forest Park boulevard. The house was bright with flowers and the bride's table was laid with handsome service and was ornamented with a bride's cake, crystal candlesticks tied with pink tulle and holding pink candles, and with pink roses. Later in the day Mr. and Mrs. Hayes left for Chicago for a few days. After the first of December the bride and groom will be at home to their many friends at 3329 Webster street, where they are going immediately to housekeeping in their own home. Mr. Hayes is a machinist in the Wabash shops and he enjoys, with his bride, the esteem and affection of many friends.

Save Wheat For Allies By Using Vegetables

BY BIDDY BYE.

Women who are honestly interested in saving wheat can do so by serving more vegetables on their dinner tables. Vegetables are not a substitute for bread but they are wholesome and "filling" and are usually a great benefit to the individual who is inclined to eat more bread than he requires.

As vegetables are usually boiled, the most valuable salts are diluted in the water and thrown away. The best way of cooking vegetables is to steam them or boil them in so little water that all of the liquor is absorbed.

Vegetables can be steamed in an ordinary colander placed over a kettle of

boiling water, provided the colander is covered so closely that the vapor cannot escape.

Vegetables served au gratin, or escapeloed, are sometimes used for breakfast dishes.

BOILED CABBAGE.

Wash the cabbage thoroughly and place it in a pint of boiling water. Boil the cabbage for one minute. Strain away the water and pour in a half cupful of fresh boiling water salted with half a teaspoonful of salt. Don't cover the pan; cook until tender, which will take from 30 to 35 minutes.

Another way is to put an ounce of butter into the pan instead of the second water, and let the vegetables stew until tender.

CURRIED VEGETABLES.

Cut in dice one cupful boiled potato, one cupful boiled carrots, one-half cupful boiled turnips and one-half cupful of left-over peas. Cook three slices onions in three tablespoonfuls of oil for five minutes. Remove onion and add three tablespoonfuls flour, one teaspoonful curry powder, one teaspoonful salt, one-quarter teaspoonful celery salt, one-quarter teaspoonful pepper and one and one-half

cupfuls milk. Stir until smooth, then re-heat vegetables in sauce.

Any left-over beets that have been served with butter and no vinegar may be creamed. Chop them coarse and to each cup of beets allow one cup of white sauce.

PARSNIP CAKES. Use left-over beets, buttered parsnips for making these cakes. Mash and season with salt and pepper, make into flat, round cakes, dip in flour and fry in hot melted drippings or butter.

CELERY TOAST.

Take the outer and tender stalks of celery that are often thrown away, cut them into half-inch pieces and cook in slightly salted water until tender. Drain and use half cupful of this water and half cupful of milk to make a white sauce. Add the celery to the sauce and pour over slices of nicely browned and buttered toast. Serve very hot.

The Solitaire Cluster

"Hold it at Arm's Length"

and your friends will say it is a single diamond. It really has that appearance, because it is a Gebhardt Patented "Solitaire" Diamond Cluster, and the seven pure white, full-cut diamonds were cut and matched to bring out a wonderfully brilliant, beautiful effect; and to think they can be purchased at one-fifth the price of a diamond the same size! Let us show you these clusters in rings, bar pins and brooches. Come in and hold one of them at "arm's length" and satisfy yourself that this cluster is all we say it is.

The Attack at Antwerp and The Slash at Seattle

President John H. Walker of the Illinois
State Federation of Labor

**Brings 800 Delegates to their feet with cheer
That Lasted 10 Minutes and Carried 3 Blocks**

"If we are opposed to the war, then we are aiding the enemy. The war was not of America's seeking after Germany instituted submarine warfare against our commerce. Thus they deprived men who work upon the seas of a right to earn a living, in violation of every law known to mankind, besides killing women and children. This government was patient, but there is no compensation for the loss of life.

The Attack at Antwerp Shows German Stand

"While at a miners' convention in Antwerp we considered a resolution to call a strike in all the coal mines in any country that would institute war of aggression or for annexation of territory. The German delegation asked for a recess, and upon its return said that if such a resolution were adopted their organization would be disrupted, their membership penalized for treason, and their personal goods seized."

The Slash at Seattle Shows German Stand

"Samuel Gompers, at the Seattle convention of the American Federation of Labor, sought to form a world congress of what was left of industry with the purpose of demanding the disarmament of all nations. The German replies were that if such a thing were mentioned in Germany, the promoters would be regarded in the light of traitors. With all these things in Germany, there is one thing we have here, by God, and that is the right to fight."

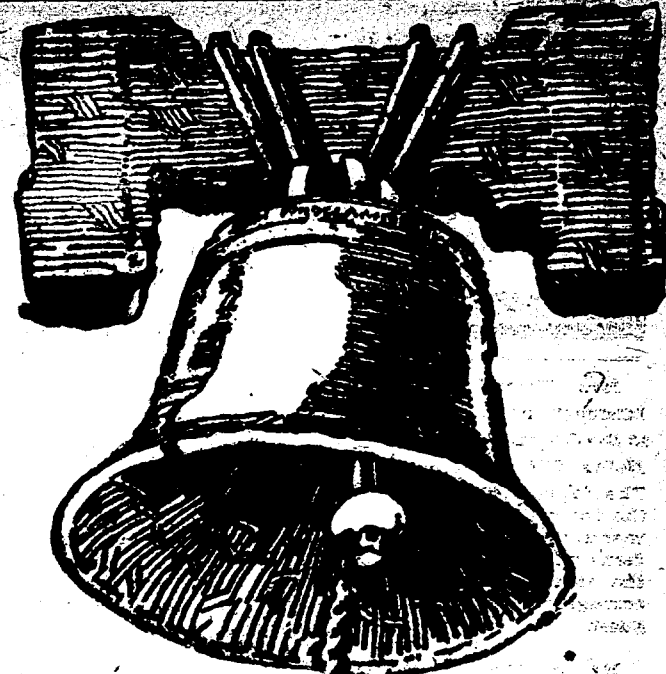

"If there's anything on earth that I can do to win this war, if it's in my power, I'll do so. I have no more feeling against the German people than I have against my mother and my brother, but I tell you that no beast like the Kaiser can dominate the world."

Nuxated Iron Makes Strong, Vigorous, Iron Men and Beautiful Healthy, Rosy Cheeked Women

Dr. N. H. Hornstine for ten years in the Department of Public Health and Charities of Philadelphia, says:

"The administration of Nuxated Iron in a number of stubborn cases where other tonics had utterly failed only served to convince me absolutely of its remarkable and unusual power. When I personally took it I found the rapidity with which my energy and endurance increased most surprising. The fact that this preparation of iron does not injure the teeth, make them black, nor upset the stomach, makes it especially desirable. In my opinion the widespread use of Nuxated Iron is bound to make a nation of stronger men, tougher women and healthier children."

Dr. James Louis Beyer, for 15 years Adjunct Professor in the New York Homeopathic Medical College, says: "Notwithstanding the fact that I am nearing my 50th birthday, a short course of Nuxated Iron has made me feel like a new man. Friends say, 'What have you been doing to yourself; you look so young and full of life?' In my opinion there is nothing like organic iron—Nuxated Iron—to put youthful strength and power into the veins of the weak, run down, infirm or aged."

Former Health Commissioner Wm. R. Kerr, of the City of Chicago, says: "I am well past my three-score years and want to say that I believe my own great physical activity is due largely today to my personal use of Nuxated Iron, and if my endorsement shall induce anaemic, nervous,

Get! That there stuff (Nuxated Iron) acts like magic. It certainly puts the ginger of youth into a man.

ous, run-down men and women to take Nuxated Iron, and receive the wonderful tonic benefits which I have received, I shall feel greatly gratified that I have made an exception to my life-long rule in recommending it. From my own experience with Nuxated Iron I feel that it is such a valuable remedy that it should be used in every hospital and prescribed by every physician in this country.

Nuxated Iron, recommended above by Dr. Hornstine and Beyer and Former Health Commissioner Kerr, is for sale by Dreier Drug Co., Meyer Bros. Drug Co., Geo. F. Miller, The Family Drug Store and all good druggists on an absolute guarantee of success and satisfaction or your money refunded.

CHILD'S TONGUE BECOMES COATED IF CONSTIPATED

When Cross, Feverish and Sick
Give "California Syrup
of Figs."

Children love this "fruit laxative," and nothing else cleanses the tender stomach, liver and bowels so nicely.

A child simply will not stop playing to empty the bowels, and the result is, they become tightly clogged with waste, liver gets sluggish, stomach sour, then your little one becomes cross, half sick, feverish, don't eat, sleep or act naturally, breath is bad, system full of cold, has sore throat, stomach-ache or diarrhoea. Listen, Mother! See if tongue is coated, then give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated waste, sour bile and undigested food passes out of the system, and you have a well, playful child again.

Millions of mothers give "California Syrup of Figs" because it is perfectly harmless; children love it, and it never fails to act on the stomach, liver and bowels.

Ask your druggist for a bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Beware of counterfeits sold here. Get the genuine, made by "California Fig Syrup Company." Refuse any other kind with contempt. Advertisement.

Socialist Steps Out of Party and Office

TYLER L. LAWTON

For four years Bicknell, Ind., boasted of her socialist mayor, the only one Indiana had. Now she is more proud of him than ever, even though he is neither socialist nor mayor. Tyler G. Lawton resigned his office and quit the socialist party because he didn't agree "with the nagging policy of the socialist party toward President Wilson." Elected by the socialists he thought it his duty to resign the office when he quit the party.

HERE'S KIND OF A SCHOOL LESSON
THAT SEEMS LIKE SOMETHING ELSE

These kiddies are studying.

Such a statement may seem strange to Fort Wayne boys and girls who associate studying with books and school desks.

But these children are learning arithmetic in one of New York's Montessori schools, where one studies and learns things while one plays and has a good time.

In the accompanying picture the little girl is being weighed, and the boy is the weighman. Thus he learns figures and how to add them. Then the little boy is weighed and the girl subtracts weights to see who is the heavier.

Oh, yes, indeed, this is much easier and more pleasant than copying figures teacher puts on the blackboard and then adding and subtracting them until one's eyes ache and one wishes there never was such a thing as school.

Why the Railroad Problem
Is YOUR Problem!

The railroads of the United States transport a billion tons of freight annually—50 tons to a family. This freight represents the business activities of the nation.

It is therefore of the utmost importance to every family in the land that railroad facilities be ample to meet the burden of increasing commercial and military necessities.

Your prosperity is at stake.

TODAY'S BEAUTY HINT.

It is not necessary to shampoo your hair so frequently if it is entirely and properly cleansed each time by the use of a really good shampoo. The easiest to use and quickest drying shampoo that we can recommend to our readers is one that brings out all the natural beauty of the hair and may be enjoyed at very little expense, by dissolving a teaspoonful of canthox, which can be obtained from any druggist, in a cup of hot water. This makes a full cup of shampoo liquid, enough so it is easy to apply it to all the hair instead of just the top of the head. This when rubbed into the scalp and onto every strand of hair, chemically dissolves all impurities. It is very soothing and cooling in its action, as well as beneficial to both scalp and hair. After rinsing out the lather so created, you will find the scalp is fresh, clean and free from dandruff, while the hair dries quickly and evenly, developing a bright luster and a soft fluffiness that makes it seem very heavy.—Advertisement.

A Stubborn Cough
Loosens Right Up

This home-made remedy is a wonder for quick results. Easily and cheaply made.

The prompt and positive action of this simple, inexpensive home-made remedy in quickly healing the inflamed or swollen membranes of the throat, chest or bronchial tubes and breaking up tight coughs, has caused it to be used in more homes than any other cough remedy. Under its healing, soothing influence, chest soreness goes, phlegm loosens, breathing becomes easier. Tickling in throat stops and you get a good night's restful sleep. The usual throat and chest colds are conquered by it in 24 hours or less. Nothing better for bronchitis, hoarseness, croup, whooping cough, bronchial asthma or winter coughs.

To make this splendid cough syrup, pour 2½ ounces of Pinex (50 cents worth), into a pint bottle and fill the bottle with plain granulated sugar syrup and shake thoroughly. You then have a full pint—a family supply—of a much better cough syrup than you could buy ready-made for \$2.50. Keeps perfectly and children love its pleasant taste.

Pinex is a special and highly concentrated compound of genuine Norway pine extract, and is known the world over for its promptness, ease and certainty in overcoming stubborn coughs and chest colds.

To avoid disappointment ask your druggist for "2½ ounces of Pinex" with full directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Ft. Wayne, Ind.

INDIANA MEN ARE SHOWN BUCKEYE PLAYS

Stiehm Gives Squad New Formations in Preparation for Ohio State Game.

Blomington, Ind., Oct. 23.—Introducing Ohio State plays, the Indiana freshmen football line hard in a scrimmage drill yesterday after the regulars had been given a long workout on new formations that will be used against the Buckeyes in the coming classic at Washington park, Indianapolis.

Before the scrimmage started, Coach Stiehm told his men very plainly they had more "pep" and charge and he has planned the work of the next two weeks. They will get plenty of it. The Minnesota scouts who had watched the Crimmins three first games had taken home the correct dope for the Gophers were able to get the right man on Stiehm's aggression before many of the plays had started.

From the way Stiehm took hold yesterday it is very evident that the Indiana team that will meet last year's champs will be at least 100 per cent better than the one that played at Minneapolis. When the yearlings began their attack with buckeye formations the big varsity men, who showed every man in the line how to lock and break up the plays. Fullback Edward and Guard Ewert were the only regulars not in the lineup. Both went to their homes for a brief visit after the game Saturday and are expected back tomorrow. Ewert proved a hero by remaining in the lineup to the end Saturday, although suffering pain. Between halves the race was taken off his leg and just as he was called for the third period to start was put on again. Dalkoff substituted yesterday for Howard and VonTress Ewert. Capt. Hathaway took his place in the line but still limps from his injury. The gates were open tonight but owing tomorrow the lid will be clamped open for the next two weeks.

ODGEN AT QUARTER.

Greencastle, Ind., Oct. 23.—The shakeup in the DePauw team, the approach of which has been felt for some time, arrived yesterday. Ted Odgen, the sensational center, has been shifted to the right halfback position. All three men have the ability and it will be a battle for the place if Odgen's transfer to the backfield is permanent. Royce was placed at left halfback and Carlisle at left end. When the signals during a part of the scrimmage, he probably will alternate with Odgen, and when not running the team will play a halfback position. In Royce Coach has what he has looked for all year—a real line plunger.

A snappy line shift was used yesterday for the first time and the signal practice was a popper one. Scrimmage is scheduled for tomorrow and "skull" practice will be held every night this week in preparation for the fray with St. Louis Saturday.

NO WABASH MEN INJURED.

Coach Townsend's Players Out for Practice—Hannicker Improving.

Crawfordsville, Ind., Oct. 23.—Coach Townsend's Little Giants came out of the rose Poly contest without an injury and were out again yesterday practicing through rain and mud. Scattered followers expressed satisfaction over the result of the Rose contest. The fact that the engineers' 200-pound line was able to score only six points on Wabash shows the Little Giants have improved considerably and that the Williams' unrelenting push is showing results. Coach Townsend is very optimistic and says that polishing a few more rough spots will cause even more improvement. Capt. Hannicker's ankle, which has kept him out of the last two games, seems to be improving and there is a chance that he will be able to play in a couple of weeks. His presence, besides adding great strength to the line, would help to instill the necessary confidence.

CHINESE LEARNING TO SHOOT.

JOHN SIEW ED KOTA HENRY LEE HENRY GET LOUIS QUONG THE MANDARIN GUN SQUAD.

This Was One of Fifteen Teams Representing Different Nations in All-Nations Shoot in Toledo, O.

(By Peter P. Carney, Editor National Sports Syndicate.)

A trapshooting tournament that was novel and, to say the least, unique, was recently conducted by the Edgewater Gun club, of Toledo, O. It was an international affair in which fifteen nations were represented, or in other words, fifteen overseas countries.

Any organization that can get Germans and English together these days with guns in their hands without the least possibility of other undertakings is a big task, but that is what the Toledo Gun club did and got away with it in fine shape. Squads of five men represented each of these countries: England, Germany, France, Ireland, Hungary, Austria, Italy, Sweden, Denmark, Poland, Russia, Greece, Scotland and China, and there was one delegation that didn't have a flag, a Hebrew team.

Don't overlook the mention of China having a team in the cosmopolitan competition. Very few can concede a Chinaman with a gun, but the "chinks" were there. It was no doubt the first time a Chinaman ever appeared before the public. The Chinese, all young men, were

UNCLE SAM'S LEAGUE.

New York, Oct. 23.—A football league comprising teams from the aviation field, Mineola, N. Y., and Fort Schuyler, Totten, Wadsworth, Jay and Blooming, has been organized by the New York Athletic club. The opening game will be played next Saturday. Each team will play five games, two at their home grounds, two at visiting grounds and one at Totten island. The club also is trying to organize a football league among the draft regiments at Camp Upton, Yaphank, N. Y., it was stated.

MASON FIGHTS AT ST. LOUIS TONIGHT

Frankie Mason, Fort Wayne's champion flyweight, and one of the cleverest boxers in the game, will fight Jimmy Ragan, who is said to be one of the classiest bantams of the west, at St. Louis tonight.

Ragan is much heavier than Mason. The St. Louis boy will have in the neighborhood of fourteen pounds advantage. However, this does not frighten Mason in the least. He realizes that if he is to continue in the fight game it will be necessary to take on men heavier than himself. There are very few flyweights in the country and certainly not many who can make it at all interesting for Mason.

JIM JEFFRIES IS SORRY.

Burbank, Cal., Oct. 23.—James J. Jeffries, who won the heavyweight championship from Bob Fitzsimmons at Coney Island June 9, 1899, with a knockout in the eleventh round, expressed deep sorrow today at the news of the latter's death.

"He was a great old friend," he said. "He was one of my best friends, and I am sorry he has gone."

Fitzsimmons visited Jeffries on the latter's ranch near here about two months ago, when Jeffries said, they "talked over old times."

TWO HURT AT HAMMOND.

Hammond, Ind., Oct. 23.—Two of Hammond's star football men were put out of business Sunday when Racine trampled over the local professionals. Longnecker, the Purdue star, sustained a broken shoulder, and Volkman, Hammond's giant right guard, got two fractured ribs and internal injuries. Neither man will ever play football again.

DOBIE'S FOOTBALL LESSONS

FALLING ON THE BALL

(By Gilmour Dobie.)
The very important fundamental, falling on the ball, is slighted altogether too much by many teachers. The best of teams fumble while on the offensive, and not only is it highly important that they themselves recover the ball but it is equally as important that the defensive side recovers the ball.

It is necessary to drill on this fundamental continuously and it is also very necessary that the players should be constantly on the alert for a fumble. Many of the

use the same powerful leg drive when he makes his dive for the ball and he should be able to fall on the ball either to the right or left.

In falling on the ball to his right the

most important games have their turning point because of a fumble. The best method to use in falling on the ball is to have the runner approach the ball well crouched in about the same position used as when tackling. He should

player should allow his right arm to come down over the far side of the ball at the same time permitting himself to fall on his side or right hip and quickly closing in with his left arm and hand.

Of course when the ball is laying to the left the player should allow his left arm to close over the far side of the ball, falling on his left side or left hip and closing in on the ball with his right arm and hand.

TWO BIG AUTHORITIES AT STATE APPLE SHOW

Leading Horticulturists of
Country to Attend Col-
umbus Meeting.

Indianapolis, Ind., Oct. 23.—The Indiana Horticultural society announces that two of the foremost horticultural authorities in the world will appear on its lecture program Nov. 21-23, when the society holds its annual growers' conference at Washington, Ind., where the Indiana apple show also will be in program. These speakers

are Prof. John P. Stewart, of Pennsylvania State College Agricultural Experiment station, and Prof. W. H. Alderman, of the University of West Virginia.

Prof. Stewart has been conducting fertilization and cultural experiments in several apple orchards for a period of ten years. He will speak with authority on his investigations and their fruits. By variations in fertilization alone he has obtained differences in yield ranging from 9 to 460 bushels per acre annually over a period of five years. At current prices for apples this means a maximum net profit from intelligent fertilization of \$800 per acre.

Prof. Alderman, who judged the 1918 Indiana apple show so satisfactorily, will judge at least a part of the exhibits again this year. In addition he will make one or more lectures on some important phases of orchard

management. More than 400 bushels of apples are now in storage at Washington waiting for the time of the show, and an average of twenty bushels daily is going into the apple show room of the Elmer Ice and Cold Storage company.

In order to instruct the exhibitors in packing fruit for the show and also for market, Purdue university will conduct a two day packing school just previous to the opening of the great apple festival. The school will be held in the exhibit hall Nov. 19 and 20.

DECORATION FOR WOUNDED. Washington, D. C., Oct. 23.—Distinctive ribbons to be worn by American soldiers wounded in action were authorized today by an army general order. Where a man is wounded more than once on the same day he will be entitled to wear only one ribbon, but

for each date upon which a wound is received, additional ribbons may be worn.

EMMANUEL SOCIETY TO GIVE WIENE SOCIAL

The Young People's society of the Emmanuel Lutheran church has announced a wiene social to be given at their hall on the evening of October 24. The affair will start as soon as the crowd has worked up a man's sized hunger. The site of the big eat will be at the school hall, corner Wilt and Union streets.

TWO CHORUS GROUPS IN "THE ARMY AND NAVY"

Director Davis is Enthusiastic Over Fort Wayne Talent.

"The Fort Wayne people are great in taking hold of a big production like 'The Army and Navy,'" declares W. Mills Davis, director of the big University club production, which is to be staged at the Majestic on the evening of November 2 and 3. Mr. Davis has been in the business of stage

out America, and his statement is not for effect or flattery. His sentiments have cropped out wherever a group of Fort Wayne people have gathered in the ballroom of the Commercial club to display their understanding of the parts which have been assigned to them in the forth-coming big spectacular musical-patriotic play.

Today, the University club announces two of the several large four hundred Fort Wayne people. These groups are "Widows," including Martha Toland, Elizabeth Lane Porter, Elma Dixon, Gladys Johns, Gladys Becker, Marguerite Gross, Janet Bowser, Mary Zent, Gladys Walker, Muriel Baxter, Grace E. Mungen, Eileen Loos, Katherine Archer, Clara Piepenbrink, Erma Dochterman, Helen L. Williams, Lorene Travers and the group of "Guests" at the college "cath," including Dr. Noah Zahn, D. S. McClure, Howard Hines, Conway M. Bask, Dr. Dochterman, and others.

W. Duncan, Verne V. Mitchell, W. H. Sunier, Maurice H. Culner, W. F. Scheumann, Otto E. Fuebner, R. H. Fitch, King Muckley, Pearl Griffin, Katherine Archer, Mrs. Frank Hogan, Evelyn Plummer, Mrs. Florence J. Hale, Mrs. Eliza Elliott, Kathryn Thompson, Margaret Gutermuth, Clarice I. Nowlin, Mrs. Paul E. Johnson, Miss Clara Piepenbrink, Miss Marie Landenberger, Edna Fuebner, Erma Dochterman.

INJURED IN FALL

Mrs. W. G. Kaiser, residing at 735 Wildwood avenue, was injured Monday evening by tripping over a rug at the head of the stairway in her home. The injuries which consist of an injured hip, sprained wrist and a laceration on her right hand are very painful, but not considered serious.

STRONGER MEN TAKE THE LEAD

They Have Nerves of Iron and
Real Red Fighting Blood

Vital force is the material from which leaders in all walks of life are made. It is well worth getting and holding.

The health and nerve of the athlete is what Nature intended every man and woman to have.

The blood of an athlete is pure and red, a strong heart pumps and drives it through his body. No wonder that every inch of his system is filled with energy and health, his nerves like iron, spirits high, hard tasks a pleasure and life one song of joy.

A leading doctor says, "Everyone should feel this way. That if you are not red blooded, are nervous, all run down and on your last legs, for you to build up your blood and nerves with exercise, fresh air, nourishing food and Nature's great prescription, Phosphated Iron, a real blood and nerve builder."

Then you will be there with vim and push to easily do the work that you now do on your nerves alone.

He also says, "Phosphated Iron feeds the blood cells with iron and nerve force, and that leading specialists are now using it successfully all over the country, that it has sprung into almost instant popularity with the better class of doctors as one of the few remedies they can depend on to produce results."

Special Notice—To insure physicians and their patients getting the genuine Phosphated Iron we put up in capsules only, so do not allow dealers to substitute any pills or tablets. For sale in Fort Wayne by Meyer Bros. four stores, also D. & N. Pharmacy. Advertisement.

**DARKEN GRAY HAIR,
LOOK YOUNG, PRETTY**

Sage Tea and Sulphur Darkens
So Naturally That No-
body Can Tell.

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe.

Nowadays we get the famous mixture improved by the addition of other ingredients by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite to impart color and a youthful appearance to the hair. It is not intended for the cure of dandruff or prevention of hair loss.

DECISION ANNOUNCED IN THE WHITE CASE

Judge Link Finds That Mrs.
James B. White Has a
Valid Title.

The First National bank and other parties recovered judgment in the Allen circuit court against Edward White and James B. White on notes that James B. White was security. Edward White had gone through bankruptcy and the bank had purchased one of his real estate, leaving him absolutely insolvent and leaving him owing a debt to James B. White of some \$15,000. The First National bank and other judgment creditors holding judgments to the amount of \$18,000 against James B. White, as surety for his brother Edward, brought suit to set aside conveyances of certain real estate to Mrs. James B. White and subject the real estate to the payment of their judgments. The cause was venued to the DeKalb circuit court and tried sometime ago, lasting a week or two, and Judge Link announced the result of the judgment, holding that the bank and other plaintiffs were not entitled to recover and deciding in favor of Mrs. White that she held a valid title to all of the real estate they sought to reach and that it was not subject to the payment of the judgments, holding that she had good title to all of the real estate and had paid full consideration for it.

GERMANS GET HEAVY BLOWS

(Continued From Page 1.)

The fighting says that the Russian units fought excellently against the superiority of the German.

The official statement: The statement reads: "During October 21, important enemy forces, together with transports, were sighted by our outposts in the Gulf of Riga. In the afternoon the enemy seemed to be clearing the water of obstructions which we laid down. There was no naval action during the day, but enemy submarines were discovered in the Gulf of Finland."

"As the naval operations in the Baltic have now ended, it is possible to review them. The task of our fleet in this region, was with the organized position of Moon sound as a base, to prevent enemy attempts to seize the Gulf of Riga and Moon sound. So long as the German fleet only employed in such an operation elements of minor importance, as in 1915, namely, two dreadnaughts, our naval forces could cope with them."

Previous Attacks. "In 1915, although our position in Moon sound was maintained, the attacks and the enemy during three days possession of the Gulf of Riga suffered losses so grave that he was obliged to depart. A similar attempt in 1916 with unimportant forces failed completely. In the recent operations the enemy employed the major part of its fleet and his overwhelming superiority enabled him to carry out operations rapidly and successfully. Our fleet only was able to do its best to hinder these efforts and to inflict maximum losses. With this object we delivered a series of attacks, using all the naval resources in our possession."

Enemy Losses Heavy. "As a result of these operations the enemy lost a number of submarines, attacks and the enemy during three days possession of the Gulf of Riga suffered losses so grave that he was obliged to depart. A similar attempt in 1916 with unimportant forces failed completely. In the recent operations the enemy employed the major part of its fleet and his overwhelming superiority enabled him to carry out operations rapidly and successfully. Our fleet only was able to do its best to hinder these efforts and to inflict maximum losses. With this object we delivered a series of attacks, using all the naval resources in our possession."

"Our losses are the ship of the line Slava and a large torpedo boat destroyer of the Grom type. The efficiency of our other ships has been maintained completely."

German torpedo boats of the T-9 class were built in 1914; displaced 115 tons, and had a complement of sixteen men. They are 131 feet in length.

The Russian battleship Slava, whose loss has been reported previously, displaced 13,516 tons, she had a complement of 825 men and was 379 feet in length. The Russian destroyers of the Grom type were built in 1914 and displaced 115 tons. They had a complement of 161 men, three men and a length of 321 feet.

good progress and we took a number of prisoners.

"Northwest of Rheims there was rather heavy artillery fighting in the night. Three surprise attacks against our small posts west of Berniercourt and east of Neuville were without result."

"In the Argonne an incursion into German trenches at Cheppy road enabled us to inflict losses on the enemy and bring back prisoners."

"On the right bank of the Meuse (Verdun front) the artillery action became violent late in the night in the region north of hill 344."

GERMANS DRIVEN BACK.

Petrograd, Oct. 23.—The Germans have made an attempt at a second landing on the Estonian coast. The war office announces that they were driven away by the Russians.

An attempt was made near Mosskull Manor, eight miles north of Werder, on the Estonian coast (The landing of German troops reported yesterday by the Russian war office was effected on the Werder peninsula). No naval engagement occurred in connection with this maneuver. German warships were observed off Kullavast, Moon Island. The Germans have evacuated more trenches on the northern end of the battle front. They were occupied by the Russians. Trenches in the sector north of Hinzberg Manor were taken by the Russian after an engagement.

GERMANS MAKE GAIN.

London, Oct. 23.—The Germans last night attacked one of the newly captured British positions in Flanders and forced back the troops holding it, the war office announces. Elsewhere the British gains of yesterday have been maintained.

notwithstanding the downpour of rain. In addition to the address by Mr. Niezer, Judge Carl Taylor, Guy Cole-riek, H. L. Somers and several of the democratic candidates spoke.

At Lakeside School.

William Freuchenicht presided at the meeting at the Lakeside school. Mr. Niezer spoke in part as follows:

Conscious that the municipal policies for which I stand in this campaign are the best for the interests of the people and the good name of this city, I have presented and intend to continue my present position openly and fairly. There are no sinister or selfish interests back of my campaign. I am not looking for the support of those who have a selfish interest to secure. If I cannot be the mayor of this city as a servant of the people of this city, and free to protect their immense municipal properties, I do not want to succeed in this campaign. I will resent the influence of any selfish or sinister interest against me. The issue of this campaign is the municipal government and municipal policies, the character of the property of this city and the development and beautification of this city.

Moore hall presents a very attractive appearance with a decoration of artificial oak foliage and several American flags. An accident of fire in the hall a day or two ago, which destroyed some plush hangings, was much of a blow to the committee, as the committee had appointed had a decoration of richer effect that had been arranged complimentary to the Woman's Club league and convention visitors.

Mrs. A. E. Panne has as her house guests Mrs. O. H. Downey, of Chubbuck, who is state chairman of the conservation department of the federation, and Miss Clara Gilbert, of Kendallville, one of the best known club women in the northern part of the state.

Mrs. C. R. Fairbank, who has served as president of the federation for two years with much devoted service and efficiency, is spending this week at the Anthony hotel, where she can be seen at her room. Mrs. Fairbank is not able to attend any of the meetings of the convention.

All confusion as to seating of delegates is done away with now by having delegates locate themselves by ballot. Mrs. W. W. Reed had charge of the ballot box and direction to location of seats at 4 o'clock this afternoon.

A large attendance of delegates is expected to be present at the banquet at the Anthony hotel on Wednesday evening at 6 o'clock. There will be a musical program and important speakers.

NATION AND STATE AFFAIR TO AID THE SALE OF WAR BONDS

(Continued From Page 1.)

would be reached although they thought the sum might possibly be taken by an eleventh hour avalanche of subscription.

"Conviction is felt in many quarters," the treasury department announced, "that the \$3,000,000,000 mark can be reached by tonight's night."

Solicitors, spurred on by their failure to make desired gains yesterday, the first day of the last week of the campaign began anew today with intensified determination. It was thought that if the loan total subscriptions could be brought by tonight up approximately \$2,500,000,000 or \$500,000,000 more than is in sight at present there might be a chance to reach the \$3,000,000,000 mark tomorrow night, the close of Liberty day.

Liberty day returns, heads of some departments are optimistic. Cash receipts \$1,000,000,000. If they approach sixty per cent of this sum they probably will send the total for the drive above three billion."

Indications pointed more and more officials said to the conclusion that a tremendous response by the entire nation with hundreds of thousands of small subscribers and many large subscribers should bring the total anywhere near the maximum quota.

Among subscriptions reported today was one of \$10,000 from inmates of the West Virginia state penitentiary. Cash was paid for these bonds. This was the largest subscription reported from any penal institution.

NOT LOOKING SO BAD.

Chicago, Ill., Oct. 23.—Campaign managers for the second Liberty Loan analyzing reports today from the Seventh federal reserve district declared themselves not pessimistic over the number of sales but expressed some anxiety over final results. With the finish only five days away, reports indicated sales of \$185,320,900 which represented 26.5 per cent of the maximum allotment of \$700,000,000 for the district. Workers were urged today to renew their efforts as the last three days have shown a slump after a week of record-breaking sales.

geants; Privates A. W. Miller and George Flaig, first class privates; Corporal Theodore Stroufe, Privates Thomas P. Ewing, Otto W. Pohlmeier and Roy C. Jahn, sergeants; Privates Harry Weisbecker, Adolph Keller and Edward T. Baugher, corporals; and Private Robert H. Sommers, corporal.

The 17th battalion is now well supplied with officers, having twenty-seven more than required. There are now five officers on the battalion staff; five officers for the 65th company, five officers for the 66th, five for the 67th, and five for the 68th. These officers came to the various organizations Monday from the Nineteenth battalion but it is rumored that the surplus ones will again be transferred.

In the group of officers who were transferred to this battalion was Lieutenant Clem J. Steigmeyer, formerly a newspaper man of Fort Wayne and well known here.

Officers Are Liked. The men who were transferred from the Seventeenth battalion to the Engineer corps under the command of Lieut. Otto Gumpert, also of Fort Wayne. The men state that they are much attached to their officers and are well satisfied with their work. The men in this organization are now learning how to tie thirty different kinds of knots which are used in the construction of bridges.

The Seventeenth battalion was issued seven horses last week. These horses will be used as mounts. Those in the organization who will receive a mount are: Capt. Fred W. Eggeman, acting battalion commander; Lieut. Austin Landreth, battalion adjutant; Lieut. J. C. Gier, battalion supply officer; Sergt. Maj. E. F. Fruechte, two orderlies and the battalion supply sergeant, who will rank as a sergeant major. This office will be filled within the next week or ten days, it is thought.

The horses are all of exceptionally good variety and although a few of them are prone to be somewhat "fussy," it is believed that the Seventeenth battalion will also carry honors in the appearance of the horses used for mounts.

Officers and men alike of the entire battalion were more than pleased to hear that Miss Irene Robyans was to give a band performance at the Majestic theater on Thursday evening, October 25, for the good of the Fort Wayne boys here at this camp. These funds will surely

THE MARKETS BAD WEATHER HOLDS DOWN CITY MARKET

No Grain Received at City
Scales—Farmers Stay
at Home.

Tuesday morning's pre-season flurry of snow and damp weather had a noticeable effect on Fort Wayne markets. The farmers, like many of the city folk, no doubt found the freeze very comfortable and cheery and did not appear at their accustomed stalls in the city market. There were only a few brave vendors present and not a large variety of produce to choose from, and what was still more impressive there were but a few who braved the weather long enough to visit the market.

At the city scales no grains were received, but a quantity of potatoes were bought. Prices ranged the same as Saturday at all markets.

RAILS ADVANCE ON COMMERCE DECISION

Prices Go Up on the Stock
Market, But Gains Are
Not Held.

New York, Oct. 23.—Rails were the strong features of today's early dealings on the stock exchange, advancing from large fractions to more than a point on the decision of the interstate commerce commission to reopen the hearing of the eastern railroads for higher rates. U. S. Steel also gained a point. Motors and a few specialties were hesitant or reactionary.

Liberty 3½s were again taken in round amounts at 99.72.

Prices became more uneven late on the further heaviness of utilities and their trend of speculative favorites. Active equipments moved in the same erratic manner and rails parted with much of their initial gains.

Liberty bonds hardened at 89.72 to 92.78.

SKINNEY! BETTER BE CAREFUL ON HALLOWEEN

Oh-o-o! Skinny, better look out Halloween night!

Police Chief Lenz is starting early in warning the youth of Fort Wayne that all Saints eve is not for destruction of property and lawless vandalism. "I am for the boys. That is why I am taking the precaution to tell them to be orderly in their merry making on Halloween," said Chief Lenz in issuing his first Halloween order, Tuesday. "I would rather they would be put on their guard and not have to be sorry afterwards."

Police are ordered to add to their vigilance in anticipation of the pre-Halloween spirit which sometimes makes itself manifest in the city. All persons who disregard property rights will be brought to police headquarters.

SNOWFALL WILL HELP SUBURBAN DAY TRADE

Brings Realization That Winter is Close Upon Us—Plans for Tomorrow.

The snowfall of this morning brings the assurance that the buying of winter apparel and supplies can be no longer delayed, and an examination of the advertising columns of The Sentinel today is convincing proof that the merchants of Fort Wayne are amply prepared to meet the needs of all in the broad region of which Fort Wayne is the trade center. Following quickly upon the day of the first real snowfall comes Suburban day—tomorrow—and most of the great price opportunities shown in today's paper are designed to meet the seasonal needs of those who come for the great weekly trade event. Not only are the Suburban day visitors invited to examine carefully all of the advertisements of the special offering for tomorrow but every citizen of Fort Wayne will be permitted to take advantage of these most appealing prices and values. Many of the stores are unable to publish a list of their great array of "specials," but their stores are filled with them, and in many cases, these specials are so designated as to make the whole interior one great autumn-winter exposition of seasonal, war-time merchandise.

Convention Brings Many. The state convention of the Federation of Women's Clubs in session here this week, will add to the number of Suburban day shoppers, as large delegations are here from the nearby cities and towns who have been fully aware of the great

TOMORROW TO BE LIBERTY LOAN HOLIDAY

NATION AND STATE AFFAIR TO AID THE SALE OF WAR BONDS

Governors of Virtually All States Have Proclaimed the Day and Not One Has Declined to Do So.

DUBIOUS OUTLOOK FOR REACHING GOAL

Washington, Oct. 23.—Liberty Loan day tomorrow will be a state as well as a national holiday.

Their interest in the day, stirred by a telegram sent out by Secretary McAdoo, virtually all governors have proclaimed the day a holiday.

Responses of residents of the various states to the proclamations have been quick and generous. Arrangements have been made to hold meetings in all parts of the country to urge the necessity of buying Liberty Loan bonds.

Thus far not a single governor has declined to proclaim Liberty day a state holiday in part at least.

Some found it inconvenient to make the entire day a holiday so they made a holiday for the afternoon. Almost every governor who replied to the secretary's telegram added a few words of encouragement for the loan.

The signal for the lighting of Liberty fires throughout the country will be given tonight when Mrs. W. G. McAdoo, chairman of the women's Liberty loan committee, lights a bonfire at the Washington monument, using for the purpose a candlestick which once belonged to Napoleon Bonaparte, and containing a trench candle made in Quebec. Fagots to be lighted by Mrs. McAdoo are of wood made from historic places in many states.

Still Far to Go.

The Liberty loan drive entered the second day of the home stretch with treasury department officials far from sanguine that the \$5,000,000,000 will be reached. Their lack of optimism is due to the fact that estimates based on latest official reports of sales and fragmentary unofficial reports indicate total subscriptions of more than \$2,000,000,000 and possibly \$2,500,000,000. The official reports, which up to the close of business on Oct. 20, showed subscriptions of \$1,338,941,900.

Although Liberty Loan day tomorrow is expected to help, officials declare that only the most strenuous efforts can bring the amount up to the

It has been established that at least six German torpedo boats were sunk in the fighting. The Russians lost the battleship Slava and a large torpedo boat. The admiralty staff in its review of

MUCH INTEREST IN CITY CAMPAIGN

Mr. Niezer Explains Why Fort Wayne Hasn't Six Cent Lighting Rate.

Notwithstanding the war and the Liberty Loan campaign, interest in the municipal election is increasing every day. It is one of the big topics among both women and men. The meetings are being largely attended.

Maurice C. Niezer, democratic candidate for mayor, will speak this evening at the Hanna school, at the corner of Lafayette and Williams streets. Other speakers will be Judge Carl Yaple, of the superior court, and Judge John W. Eggeman, of the circuit court. The appearance of both judges has added interest to tonight's meeting.

Bush Not Coming.

Lieutenant Governor Bush will not be in attendance at the republican meeting scheduled for tonight at the Washington school as advertised by the republican city committee. He is not coming to Fort Wayne.

Two republican meetings are scheduled for tonight at the Washington school and the Bowser barn. S. F. Bowser will preside at the latter place and W. Sherman Cutshall, republican candidate for mayor; Owen N. Heaton and Robert B. Hanna will speak. In addition to Mr. Cutshall, William N. Ballou and J. Frank Mungovan will speak at the Washington school.

As proof of the interest that is being taken in the candidacy of Mr. Niezer large audiences were present at both of his meetings Monday night held at the Lakeside and Rudisill schools.

KAISER THANKS LEOPOLD FOR A PIECE OF WORK

Amsterdam, Oct. 23.—After his return from Constantinople, Emperor William telegraphed to Prince Leopold, of Bavaria, commander on the northern front in Russia, his own and the fatherland's thanks for the success achieved by his well tried troops in capturing Oesel, Moon and Dago islands in co-operation with the navy.

The emperor also sent congratulations to the chief of the admiralty staff, describing the naval operations as "fresh proof of the preparedness of my navy."

PARADE WILL BE HELD AS PLANNED

The women of Fort Wayne will not permit a little thing like a snowstorm to interfere with their plans and the monster parade and bonfire will be held as arranged. Every woman in Fort Wayne with two good feet is expected to take part in tonight's Liberty Loan demonstration.

MANY HERE FOR MEETING

Twenty-Eighth Convention of Indiana Federation of Clubs Convened.

INTEREST CENTERS IN NEXT PRESIDENT

Several Women Prominently Mentioned to Succeed Mrs. C. R. Fairbank.

The twenty-eighth annual convention of the Indiana Federation of Clubs opened in Moose hall, corner of Wayne and Webster streets, Tuesday morning with a fine showing of officers and delegates attending to the preliminaries of a splendid program covering three days.

All officers, except Mrs. C. R. Fairbank, of Fort Wayne, who is closing her second year as president of the federation, and Mrs. Cora F. Goodrich, of Winchester, wife of Governor Goodrich, one of the trustees, were present today. The day was occupied with special meetings of credentials and executive committees, the board of directors and council meetings, the enrollment of delegates and a general discussion of the following topics: 1, "What Has the Vocational School Done for Your City?" 2, "In Which Department of Federation Work Is Your Club Most Interested?" 3, "Would Fewer Committees With Smaller Membership Serve the Purpose of the Federation?" 4, "Would a Mid-winter Meeting of the Chairmen of State and District Committees Be Helpful?"

Already there was much buzzing concerning the probable candidates for the office of president, the term of two years being the limit of office-holding. Therefore, this is the closing term of the present incumbent, Mrs. Fairbank. Three candidates have already been presented in a general way before the clubs of the federation and there is a friendly rivalry between supporters of each with no telling what may come up Wednesday morning when nominations are made from the floor.

Three Mentioned for Presidency.

Mrs. Edward Franklin White and Mrs. Ovid Butler Jamieson, both of Indianapolis, and Mrs. John E. Moore, of Kokomo, are names the delegates are already familiar with as possible nominees for president. Possibly Mrs. White has the strongest following as her work as a lawyer is well known and her ability widely recognized. Particularly appealing to many of the delegates, however, is the work of Mrs. White in the state legislature for two

BRING A BRITISH TANK TO AID IN BOND CAMPAIGN

New York, Oct. 23.—A British tank, similar to the giant war machines of this character in active service in France, reached this port today on a steamship from Europe and will be set up here as a companion exhibit to the German submarine which recently arrived, to stimulate liberty bond purchasing. The tank was lashed on the forward deck of the steamship, being too large to be placed in a hold. A British army officer and eight men were in charge of it during the voyage.

German Forces Recover a Bit of Ground from the British.

Paris, Oct. 23.—An attack was made by the French early this morning on the Aisne front north of Soissons. The war office reports that considerable progress was made along the whole battle front and that numerous prisoners were taken.

The statement follows: "This morning at 5:15 o'clock after artillery preparation of several hours, our troops assaulted the powerful German positions in the region of Allemant and La Malmaison (northeast of Soissons). On the whole front of attack we made

LOCAL BOYS PROMOTED

Several of Them Given Non-Commissioned Jobs at Camp Taylor.

MANY BATTALIONS ARE BROKEN UP

As a Result of the Recent Transfers to Hattiesburg, Miss.

BY E. F. F. (Staff Correspondent.)

Camp Zachary Taylor, Ky., Oct. 23.—Another shake-up has occurred in the 15th Depot Brigade at Camp Zachary Taylor. Another time the 17th battalion weighed out correctly and remained on top of the sifter and saved itself a fall through the screen.

Many of the battalions were broken up after the majority of the personnel had been transferred to Hattiesburg. The Nineteenth battalion, composed of fourteen officers and 127 men, were transferred to the Seventeenth battalion.

It might be explained that when a company of men or battalion of men are transferred the non-commissioned officers are "busted." In other words they are reduced to privates. In escaping being transferred the men from Fort Wayne who had arrived at the point where they were made non-commissioned officers consider themselves extremely fortunate.

During the past week more Fort Wayne men have advanced a step on the ladder of ranks in the army. Nearly all the men who were not transferred to Hattiesburg have landed a non-commissioned officer's job.

The promotions are: Corporal Emmet C. Rohyans and Corporal Edward J. Harkenrider have been promoted to the rank of sergeants; Privates William J. Vesey and Justin Sherrod, sergeants.

Y. M. C. A. OFFICERS SERVE ANOTHER YEAR

Personnel of Leaders Not Changed at Meeting Monday.

The officers who have been serving the local organization of the Y. M. C. A. so faithfully for the past year have been retained for the next year. A resolution was adopted continuing in office the present members and officers of the central board. They are as follows: E. E. Griest, president; B. Paul Mossman, vice president; R. H. Matk, recording secretary; Theodore Wentz, treasurer; S. F. Bowser, W. N. Ballou, J. E. N. Dillon, S. W. Lenfesty, W. E. Mossman, A. H. Perfect and M. S. Willson. Also the following trustees: S. F. Bowser, chairman; E. P. Mossman, vice chairman; E. E. Griest, P. H. Doty, B. H. Hudson and Judge O. N. Heaton.

The report of the treasurer showed that of the \$341,578.83 subscribed, \$163,020.11 had been paid, leaving \$178,558.72 to be collected. Three thousand, five hundred and forty-five subscriptions have been paid complete to date, and the association has a balance of \$4,547.33 after payment of all debts to date.

President Griest in his report told of the progress that had been made on the new building that is being constructed on the site of the old Hope hospital. He also spoke of the activity of the directors on the various patriotic and civic affairs, and in the Y. M. C. A. war work drive. S. B. Bechtel was appointed chairman of the city committee of management and O. E. Maxwell chairman of the railroad department. At the meeting Monday night it was decided to keep the two local organizations of the Y. M. C. A. separate, but that all work should be directed from the new building. According to the report of Mr. Maxwell the railroad department enjoyed a prosperous year.

A sad feature of the meeting was the vacant chair usually occupied by James M. McKay, a life long friend and member of the board of trustees and central board. A resolution was adopted by the meeting and sent to the family of Mr. McKay in permanent form.

HALF GERMANY'S SUPER-ZEPPELIN FLEET CRUSHED

Planning Terrible Vengeance on Britain and France, Kaiser's Sky Dreadnoughts Come to Grief.

SPELLS DOOM FOR ZEPS AS TERRORS

Washington, Oct. 23.—Germany probably lost one-half of her total effective fleet of super-Zeppelins as a result of the raid of October 20 over England, according to official cablegrams received here.

All France is exultant over what the dispatches declare has been the greatest defeat administered to an air fleet since the beginning of the war. The gratification is more intense because it is now known that the German raid was an attempt to carry out a fearful threat of vengeance made four days before.

On that occasion the German government sent out a warning to both France and England of dire punishment to follow what the Germans declared to be unwarranted and inhuman attacks by British and French aviators upon peaceful German towns.

FIND IMMENSE SUGAR STORES

One Hundred and Fifty Carloads Are Unearthed in Buffalo.

SUGAR SECRETED IN A WAREHOUSE

Stores Labeled Flour and Sacks Camouflaged to Help Deception.

Buffalo, N. Y., Oct. 23.—Federal secret service agents reported to Washington the discovery in a Buffalo warehouse of millions of pounds of sugar in bags and barrels labeled "top crust flour." Notations on the packages, it was said, indicated that the sugar had been coming into the warehouse over a period of several months. A federal agent who made a survey of the contents of the building estimated the amount of sugar at 150 carloads, or about ten million pounds. Around immense piles of sacks containing the sugar the federal agent said, he found a screen of other articles while some of the containers marked "top crust flour" actually had flour sprinkled over the outside.

Summary of the Day's War News

What may prove to be an operation of first rate importance was initiated by Gen. Petain early today in the Aisne region, northeast of Soissons. Along a front approximately three miles in extent the French infantry dashed forward, attacking the salient in the German line which curves about the southwestern keystone, the fortress of Laon.

Fort De la Malmaison, the German stronghold, which baffled the French in last spring's attack, barring their way to the westerly end of the Chemin des Dames, is apparently one of the immediate objectives of the offensive. For days past the big French guns have been hammering this front heavily, both the Paris and Berlin reports indicating that some major movement was in preparation. Good progress was reported early in the day by Gen. Petain, the French forcing their way forward along the whole front of the attack. The taking of Fort De la Malmaison would materially aid in the pushing of an attack on Laon, in an attempt to turn the German line in this region, although it has been considered the plain blow in such an attack would be struck further to the east, where the back door road to Laon offers superior tactical advantages.

Virtually all the ground gained yesterday's offensive in Flanders has been retained by the entente forces.

LONE WORKMAN WITH A PISTOL CAPTURES ZEP

Bourbonne, Les Bains, France, Oct. 22.—(By the Associated Press.)—The L-49, the only Zeppelin to fall into the hands of the allies intact, struck its colors to the shotguns of a local workman named Boiteux. Lieutenant Lammargue, of the Crocodile Escadrille, winged the Zeppelin, forcing it to land.

About 9:30 o'clock Saturday morning Boiteux was walking in a field with a dog and a gun when he heard the sound of motors. He looked up and saw the Zeppelin surrounded by airplanes which were peppering it. The monster was flying very slowly and very low. Suddenly the bows dipped into a clump of trees and the airship came to a standstill, subsiding gently across a narrow ravine in the bottom of which runs a brook.

"Immediately," said M. Boiteux, "the nineteen men of the crew clambered to the ground. The last to leave, who I afterward found was the captain, lined them up in good order and said something to them, probably his last instructions. He then fired a pistol into the envelope.

"I at once grasped that he intended to set fire to the Zeppelin and determined to stop him at any cost. I was about thirty yards away from him. I loaded my gun with buckshot and

LIBERTY BOND DRIVE AT THE G. E. WORKS

Beginning of Event to Be Announced by Screech of Whistle.

The prolonged screech of the great siren mounted on the top of building No. 19 of the General Electric company's plant will announce to the employees tomorrow morning that the great drive for the sale of Liberty Bonds is on. The sale will open promptly at 8 o'clock and the team captains are very optimistic, believing that the quarter million mark will be reached this time. Appreciating the value of their investment, aside from the patriotic standpoint, most of the earlier investors will purchase a second bond, and those who did not embrace the first opportunity to buy in the great cause, for, as one man expressed it, a soldier gives his life which he cannot get back, but I can get my money back and with interest. The result of the campaign will be posted on a mammoth score board, mounted in McCulloch park, at the close of the day, and also at 9 and 11 o'clock a. m., as well as at 2, 4 and 6 p. m. on smaller boards throughout the works. The results will be given in averages, rather than totals from a standpoint of fairness to all departments.

Reproductions in miniature of the standard military rifle cartridges, together with a small pamphlet describing the number of lives saved by one Liberty Bond alone, will be distributed to the employees tomorrow morning as souvenirs of the campaign.

Mr. H. B. Hanna, Rev. Folsom, H. H. Hilgeman, A. E. Thomas, Charles Niezer and Judge Eggenman today again spoke to the men and women on the world issue and the necessity for its support.

BOWSER EMPLOYEES ARE PATRIOTIC

Have Miniature Pageant Through Factory in Big Liberty Loan Drive.

The Bowser employees this morning witnessed a pageant of their own when a body of Red Cross girls marched through the big plant to aid in making the second Liberty Loan campaign a greater success than the first one. Each girl carried a banner bearing an appeal to the employees to purchase Liberty bonds, and they were read by the employees, who in return showed their patriotic spirit by applauding the girls. A banner carried by one of the girls reading, "The Kaiser Will Be Weisser After the Second Liberty Loan," was the center of much enthusiasm among the workmen. The Bowser employees, who have shown their loyalty in the first Liberty loan, have set their zeals to make the second one a greater success, having sold \$12,000 worth of bonds in fifteen minutes yesterday.

SHOP CLERKS ARE HOLDING MEETING

Come Here from Division Points on Pennys to Discuss Office Work.

C. N. Brentlinger, chief motive power clerk of the Pennsylvania Northwest system, called all the division chief shop clerks on the system here today for a conference, which is being held in the office of Superintendent of Motive Power T. W. Demarest. Mr. Brentlinger is presiding and among those in attendance are the following chief shop clerks: J. H. Hebrock, of Fort Wayne; Henry Wescher, of Chicago; J. A. MacMahan, of Allegheny; H. J. Campbell, of Mahoningtown; J. W. Winter, of Crestline; and Mr. Scheumann, of Wellsville. The meeting will probably close tonight.

WABASH BOOMING BOND SALE

Committee Put Intensive Campaign in Operation Today.

The Liberty bond campaign inaugurated on the Wabash road last week is taking on more activity and is promising good results. The plan, which has the backing of the company, is similar to that of the Pennsylvania and the Nickel Plate, allowing the subscriber to pay for bonds at the rate of 10 per cent each month if desired. On the road the four brotherhoods—the O. R. C., the T. R. T., the B. L. E. and the B. L. F. and E.—have committees out soliciting for the campaign, while the shops and round house are being solicited by the men representing the various crafts. They are L. D. Miller, of the machinists; F. J. Schwartz, of the pipe fitters; Ed Seibold, of the boiler makers; Eugene Juhl, of the blacksmiths, and Henry Koenig, of the carpenters and car repairmen. These committees will in turn report to Chief Clerk Oscar Rohrbaugh, who will forward the applications to L. G. Scott, of St. Louis, the company's comptroller. Some of the departments will make a 100 per cent record. The \$50 bond seems to be the favorite, but some are taking \$100 bonds, while a few are taking bonds of greater denomination.

ELEX CLUB TONIGHT

Girls Arrange a Fine Program for Their Party.

If the weather will permit the big demonstration and parade of the women of Fort Wayne, in the interest of the Liberty bond campaign tonight, the Elex club will join in full force before opening their annual party and entertainment in the third story of building No. 19, which is scheduled to begin promptly at 8 o'clock. The club has been at great pains and no little expense to get up the party and they expect a big attendance and a most enjoyable time. As stated by The Sentinel an amusement and educational program will feature the early part of the evening, followed by a "feed" composed of coffee, sandwiches and other good things, prepared by the committee selected for that purpose. An interesting feature of this part of the program will be the method of preparing the viands, which will be accomplished on electrically heated utensils operated by the ladies. Considerable interest centers in the slight-of-hand performance of LaDelle, famous for his wonderful tricks. The committee held a meeting yesterday morning and completed the arrangements for the party.

PASSES \$110,000 MARK.

Western Division of Pennsylvania Still Buying Bonds.

Up to 6 o'clock last night the sale of Liberty bonds on the Western division of the Pennsylvania had reached \$110,000. It is known that there are a number of others ready and anxious to buy, but have not been given opportunity and Supt. Otto Schroll, Master Mechanic E. E. Griest, Trainmaster C. L. Hamilton, Division Engineer Guy Scott and others, who are pushing the campaign, believe that the sum total on the division will be very near, if it does not exceed, \$125,000. At 6 o'clock last night the amount of the subscriptions in the shops had reached \$70,000. The last sale it was slightly over \$30,000.

GOOD TIMES TO COME FOLLOWING THE WAR

Howard Elliott Predicts Greatest Prosperity in U. S. History.

Chicago, Ill., Oct. 23.—"I believe that after the war is over we are going to see the greatest business in the United States that we have ever seen. It may not come the first year, but it is coming."

This prophecy is made by Howard Elliott of the Railroads' War Board. "The movement of putting all the railroads in the country under this so-called war board," continues Mr. Elliott, "is of interest in another way than simply in its aspect of giving a higher efficiency for the use of the people of the United States."

"Some say that the putting together of the railroads the way we have this year is an argument in favor of government ownership. I do not agree with that. I think it means that the splendid initiative of the American business man, that has built up this great transportation system that today is doing 20 to 25 per cent more than it ever did before, even under the complicated conditions that confront us—it means that the initiative of the American business man, if not to much fettered by small and nagging restrictions, can do more for the expansion of American business and the expansion of the country than we could possibly obtain under government ownership."

"I say this because that is one of the great problems that very likely will develop out of this war, and those who depend on a successful transportation system are the men who will have to help decide that great question by such views as congress gets from its constituents all over the United States."

RUN DOWN BY AUTO.

Machinist Henry Starke Victim of Painful Accident.

Henry Starke, machinist in the Pennsylvania shops, sustained painful injuries and came very near being killed at 5:45 o'clock this morning, as he was riding his bicycle through the Calhoun street subway. He met an automobile and made an effort to pass it, but the driver of the machine crowded him to the curb, where he fell in such manner that the auto passed over him. One of the wheels went over his head, leaving the imprint of the tire on his neck and cheek. The chauffeur stopped immediately and went to the assistance of Mr. Starke, picking him up and taking him to his home on West Creighton avenue, where he received attention from a surgeon. No bones were broken, but Mr. Starke's body and limbs were bruised and sprained severely and he was barely able to walk. His bicycle was completely wrecked.

"FOR KAISER," LOSE JOBS.

Two Portland Men Discharged for Alleged Pro-German Attitude.

Portland, Ind., Oct. 23.—The declaration, "I'm for the kaiser," alleged to have been made by Roy Layman and John Layton, employed at a popcorn stand, has cost them their jobs.

Layman and Layton are alleged to have made the remark last Friday, in the presence of a score of witnesses. The report soon spread, and when the members of the council of defense learned of it they asked Clyde Stagg, the men's employer, to dismiss them, which he did.

It is alleged the two men have been pro-German for some time, and that they gradually have become more pronounced in their attitude against the United States. The case has been reported to the government authorities.

COAL OBTAINED AT PERU.

Peru, Ind., Oct. 23.—The coal shortage in Peru was somewhat reduced today when three dealers were supplied with two cars of Virginia and two of Illinois coal. A few days ago two other carloads of coal were obtained and many of the dealers say they have carloads of coal on the way. City authorities say that they have obtained the recent shipments of coal which are being unloaded. Arthur Heron, superintendent of the electric light plant, says he will soon have an abundance of coal for the city's light and power system, and that Peru will not be in darkness in the future on account of coal.

SHOW HIM.

Germany has just floated her seventh war loan. The kaiser congratulates himself and his people that it has been a signal success. We on this side have no means of knowing how much of a success that seventh loan has been. It may have fallen short of both needs and expectations for anything we are likely to find out. Skeptical reflection may be well warranted.

But there is something we of America can do that will be much more to the point than cherishing doubt of the success of the German war loan. We can make our own second Liberty Loan so massively a success that it will not greatly matter how things fell out with the kaiser's recent loan. A five billion dollar subscription to the second Liberty Loan will be the strongest and most impressive answer America can make to the kaiser's overflowing joy at the success of the seventh German loan.

It is up to the people of America to show William Hohenzollern that this nation and its people are not in this war on a bluff, as he and his kind have been fond of believing and have exerted themselves with untiring diligence to convince the deluded people of Germany. A five billion dollar subscription to the second Liberty Loan will be of as much consequence as an Anglo-French drive into the kaiser's battle lines.

From the beginning of Prussian insult and outrage and violation of American dignity and honor and peace the Prussian war caste believed that Americans were too fat and well-fed and rich and devoted to money-making and submerged in prosperity and weakened by ease to care much what might be done to them and their national honor if only they were not molested in their grubbing for gain. They thought we would not fight. They believed we could not fight if we would. They held that we were a nation incapable of war. They nursed the delusion that our people would not support the government in war.

The Prussian king and the Prussian war caste themselves now know better, but they are not yet sufficiently convinced. The German people, the great masses of the kaiser's subjects, have not been permitted to know what is going on in America. They do not know that our navy is the factor that has worked so effectively against the German submarine campaign of ruthlessness. They do not know that we are training a million men to go over against the kaiser's armies and that back of this million are millions more who will be ready to go when needed. They do not know that already we have laid all the plans for the expenditure of more than twenty billions in our first year of the war.

payment on bonds, but these very economies are of the sort that in these times should be practiced as a rule. When the bond is paid for the purchaser will have saved money equal to the face of his bond and will have it in the form of an investment which is as secure as the land itself and will pay him a good rate of interest for many years. The investment will not in any way be taxable for national, state or municipal purposes and the interest paid on the bond will be net income.

Buy bonds and help your government. Buy bonds and make your country safe. Buy bonds and show the kaiser—for than now there will be no better time to show him.

THE PEOPLE ARE FOR IT.

The people of Fort Wayne, not excepting some hundreds who do not patronize it, are in favor of the maintenance and expansion of the municipal lighting system. This is the fact because there are few people in Fort Wayne so dense of understanding that they do not appreciate what the value of this public institution has been and will be to them.

It is calculable how many hundreds of thousands of dollars the municipal lighting enterprise has saved to the pockets of the people of this city—patrons of the opposition no less than patrons of the city lights. It is not calculable how many millions of dollars it will cost the people of Fort Wayne if the city electric lighting enterprise were to be subjected to policies of depreciation and ultimate ruin. Private lighting enterprises are established and maintained primarily to make money. Municipal utilities are established and maintained to render the best possible service at the least possible cost.

Without the entrance of the municipal lighting enterprise into this field the old franchise rate of 10 cents would still prevail and the people would be paying one-third more for their domestic current than they now pay. If the bill that was prepared last winter for the relief of the Fort Wayne municipal lighting department had not been strangled the people of Fort Wayne would today be paying one-seventh, certainly, and almost one-third, possibly, less than the rates the city is forced by the public utilities commission to charge for current. The city is able to reduce the rate to consumers, but it is not permitted to reduce it, because the competing interest objects.

If Mr. Niezer is elected mayor of Fort Wayne he will make it the object of his most energetic efforts to get the obstructions removed that prevent the people of Fort Wayne from enjoying the full benefits of their own enterprise. He will fight for that and fight hard.

Will Mr. Niezer's competitor pledge himself to such a battle for the freedom of the city lighting enterprise from the trammels that today prevent the lowering of electric lighting rates to the people of the city? The great body of the voters of Fort Wayne ought to find out about these things now. After the election it will be too late to find out what this candidate or that proposes to do in the event of his election.

Let no mistake be made. The interests that are opposed to the city lighting enterprise, that are opposed to lower lighting rates and have fought and will continue to fight them, are not supporting Mr. Niezer. They are supporting Mr. Cutshall. Why? The influence that was strong enough to procure the death of the lower rates bill in the legislature is doing its utmost to bring about the defeat of Mr. Niezer and the election of Mr. Cutshall. Why?

Where are your interests, Mr. Average Householder, whose lighting rates are of material concern? Who stands for your best welfare and interest—Mr. Niezer or Mr. Cutshall?

A PRIVILEGE AND A DUTY

"U. S. A. Preferred." That is a Liberty Bond which is not only your privilege but your duty to buy. It is a duty that every man should regard as the highest privilege. All of us cannot serve in the ranks of the army, but every man and woman with a spark of patriotism in his or her soul, such as marked the men who penned the Declaration of Independence when they pledged "our lives, our fortunes, and our sacred honor," can serve in this glorious cause—contribution to the Liberty Loan.

Has the value of a Liberty Loan Bond been considered by you? It is better than cash in your pocket; it will do more for you than actual dollars. The bond is worth its face value; it can be borrowed upon practically up to its full value; it can be sold above par; and if held by you it will pay you 4 per cent interest. Money in your bank will not do that.

Think of the honor of being a stockholder in the highest co-operative organization in the world, the United States of America. Honor, duty, privilege—all are his who buys a Liberty Bond; and you have the profit, too. It is the "U. S. A. Preferred." If you can't serve in the ranks of the army you can at least aid the government to support those who represent you on the firing line. Do you know what a \$50 bond will do? Consider: it will—Buy three Springfield rifles, complete. Buy 1,500 rounds of ammunition, enough to supply sixteen soldiers going into battle. Buy ten new rifle barrels to replace those worn out. Pay one soldier for seven weeks. Feed one soldier five months or a company of 150 enlisted men one day. Equip one soldier with clothing complete for a three year enlistment period. Keep clothing of one soldier in repair and replace without clothing for two years.

THE TRANSFER CORNER By R E M

"Fare, please! All the glad ones, and the sad ones; all the good ones, and the bad ones—get on here!" "I USED TO WEAR A GOWN OF GREEN." I used to wear a gown of green And sing a song to May, When apple blossoms starred the stream And Spring came up the way. I used to run along with Love By lanes the world forgets; To find in an enchanted wood The first frail violets. And ever 'mid the fairy blooms And murmur of the stream We used to hear the pipes of Pan Call softly through our dream. But now, in outcry vast, that tune Fades like some little star Lost in an anguished judgment day And scarlet flames of war. What can it mean that Spring returns And purple violets bloom, Save that some gipsy flower may stray Beside his nameless tomb! To pagan Earth her gown of green, Her elfin song to May— With all my soul I must go on Into the scarlet day. —Katherine Hale.

Our Daily Affirmation. TO THE PURE ALL THINGS ARE PURE— BUT THERE ARE TIMES WHEN YOU'D BETTER BOIL THE DRINKING WATER.

Search Us. Sign on Calhoun street: "Umbrellas, \$1.00 Up." How much are they closed?

Remoscopy. Germany has been tottering for so many months that we are inclined to believe that what ails her is national locomotor ataxia and nothing else. The military aid which we are receiving from Japan sounds like a story taken from Lafcadio Hearn.

The only thing we can see about Barnard's "Lincoln" that makes us feel like voting for it is the fact that the statue doesn't look like Lincoln or anybody else—and if that isn't art camouflage, what can you call it? You can always tell whose statue it is by looking at the letters cut in the pedestal. The finest thing about war poetry is that it is mostly prose.

Henry Cabot Lodge has published another book—and just think, we were reading that guy's books when we were a little boy in high school. How long is the Homeric catalogue, anyhow?

The food experts have pulled off one more good one—no wheat for the chickens. The Leghorns will never cackle over a corn substitute. The gunman who said that "hell had broken loose in Philadelphia" probably never thought he would attain to the dignity of having his language noticed by the "Literary Digest."

Washington has a woman sleuth in its official household. The official household doesn't differ so much from our own in some respects it would seem.

Life's Little Worries. Where are you going to get your ashes this winter to put on your slippery sidewalk? They say ice cream will cost twenty cents a plate next year. If you eat too much corn meal you may get pellagra—if you don't eat enough you may starve. It is said that this winter is sure to be a long one. (And it is so said every year of our lives.) Only a few of us can afford Louis Q. furniture. (The rest of us enjoy the P. D. Q. kind.) There is more than ten billions of microbes in every mouthful of water we drink. The family washing must be done at least once a week.

Our Most Helpful Suggestion. THERE'S ONE SURE WAY TO GET YOUR PAY WITHOUT A BIT OF HURRY; HOLD YOUR TONGUE, AND MAKE YOUR BOSS THINK YOU'RE BUSY AND POWERFUL CROSS, AND ALWAYS IN A HURRY.

Lesson in Pronunciation. Bobby—Papa, what does "h-o-n" mean? Papa—It all depends on whether you mean "Hon." hon, or Hun.

To Be Fit They Must. We have observed pictures of the cabinet members taking exercises of a building-up nature; but no one has yet told us how many of the gentlemen drink Postum.—C. C. S.

No, Never! Nor Why! "Let us not forget," says A. M., "that the Indiana undertakers met quite recently in Terre Haute."

Wanted Two. Waitress (in Backwoodsville's only hotel)—I'm bringin' yer aig, sir. Mr. Tragedee (who belongs to the barnstorming company stranded there)—Ha, minion! How singular is your speech!

Bound to Come. It has not dawned upon us yet, But it will come, of course— A slot machine in which to get A hurry-up divorce. —Philadelphia Bulletin.

It has not come—perhaps we're green To mention this world-beater— A marriage-license slot machine That is a good repeater.

An Absence of Mind. We observe the following interesting item of news in an exchange: "William Arthur Fletcher, ship's apprentice, of South Shields, was remanded for a week on a charge of absence from his ship. His captain alleged that he had found Fletcher asleep on the bridge."

Our Daily Tip to the Kaiser. WILLIAM, WE UNDERSTAND THAT YOU HAVE DISCARDED THE "DOXOLOGY" AT MEETING—BUT WE ARE SATISFIED THAT YOU CAN STILL SING, "HOCH! HOCH! THE GANG'S ALL HERE!"

It Has Happened to Us. "Why," whizzed the professor of biology, "does the human being laugh?" "Because," because of the pet of the class, "he wishes to appear like a good fellow, and so avoid offending openly the friend who told him the yarn."

Like Cures Like. Physician—I'm desperately in love with you and want to marry you. Nurse—Well, I was always great for giving people desperate remedies for the desperate diseases.

Land, Yes! And U. S., Too. Q. O. says that he observes that Germany is to have six more dreadnaughts soon, and is it the intention to cause the British taxpayers to groan some more?

LIBERTY LOAN GOES TO HELP PEOPLE WHO HATE WAR AND WOLFISHNESS

HERBERT QUICK, Member of the Federal Farm Loan Board. "War is not our business. We hate it. So does France. So does England. The irony of it," said many a French soldier as he marched to the front, "that we, with all our culture and learning and civilization, must go into the trenches and fight like savages." And how they have fought.

The British people for months could scarcely believe that they must go down to this foul death; and how they went, and how they are fighting. War is not their business, either. But war is the German's trade. Through all the years of which Germany brags as years of peace, there was not one single moment of real peace. It was all a preparation for this damnable thing they have forced upon us. The Liberty Loan goes to help the peoples who hate war, and to defeat the ones who even in peace times are merely lying in wait like tigers for the chance to spring.

Just before the German war broke out, there came to an Ohio town a godly young German student who wished to prepare himself for the ministry in an American theological school. The German war broke out, and he was forced to stay in America. I suppose he is here yet. One day he was taken by an American friend to a moving picture theater, and there was suddenly thrown on the screen a reel of pictures of the fight of the Belgian refugees before the German invasion. The godly young German gazed on it as if fascinated. He saw women and children before the German storm in a great wave of human debris; little children peering into strange faces for lost parents; mothers weeping for lost children; every human derelict so recently a citizen, with a home, a trade, a husband or a wife, a parent or a child, a sweetheart or a lover.

The awfulness lay as much in what these people had been yesterday as in what they were today; that quiet and peace as compared with this anguish and desolation. It must have seemed to this godly young German divinity student like the reproduction of the vision of Isaiah. Perhaps he recalled the terrible text: "For it shall be that as wandering birds, as a scattered nest, so shall the daughters of Moab be at the fords of Arnon;" or this, perhaps, still more awful in its application to such things as the German erasement of Louvain and Dinant. "Every one that is found shall be thrust through; and every one that is taken shall fall by the sword. Their infants also shall be dashed in piece before their eyes; their homes shall be spoiled and their wives ravished."

His friend felt a deep embarrassment to have thus brought the godly young German divinity student to a place where the disgrace of his country was thus openly displayed. But he need have given himself no uneasiness. The godly young man was not ashamed. The tears in his eyes were tears of true German piety at the work of the German god; for he turned to his friend with the joyful whisper, "Oh my friend, war is Christ-like! War is Christ-like!" Shameful perversion of people's souls! He was a good young German in the fashion of 1914, and therefore he had to believe that war is a good thing in itself.

This is the wolfishness against which we fight in this war; and we fight alongside the nations which hate war but are forced to fight wolfishness. The world cannot be again as it was, half democratic and half despotic. It must be all one or all the other within fifty years. We fight to make it all democratic.

It is not to recognize it when they see it, and to sympathize fully with those who suffer by it. As the Paris Temps very justly remarked in regard to the incident, "what is of the most importance is to bring the whole affair into the light, and to find a remedy for the real causes which contributed to the escape of the submarine. 'The friendship which unites the Allies and Spain is free from all arriere-pensée, and it will only be strengthened by casting full light on the whole affair.'"

The world, outside the Central European confederation, is beginning to realize that few activities of national life in any country can be said with certainty to be free from the taint of German intrigue, and whilst it is hard to imagine that the world has anything to learn about this intrigue, still every additional uncovering of means and methods is an additional security for all concerned. In this particular instance the German propagandist has gained his particular object, the submarine U-233 has escaped from Cadiz; but if the incident provokes in Spain that firm-handed dealing with the whole question which is so urgently needed, the account between the two nations will show a very large balance in favor of Spain and the Allies.

MUST HAVE A VICTORY.

(Philadelphia Record.) As there are no victories for the Germans on the western front, it is barely possible that a victory on an island in the Gulf of Riga is better than nothing; anything on the western front by transferring troops thither from the Gulf of Riga that would

seem to be the thing to do. Of course, it may be that the Germans are so far outnumbered that abandoning Russia and concentrating on the western line would not afford any military successes with which to pacify public discontent, but in that case the end can not be materially deferred by pretended demonstrations against Petrograd.

NOT A RICH MAN'S WAR.

(Crawfordsville, Ind., Journal.) The new revenue bill just passed by congress should go far toward silencing that class of trouble-breeds who have been going about whining that this is a rich man's war; that is, that he is the one who is promoting it because of the great advantages that will accrue to him. Of course, that is not so, but when even men of the brains which La Follette is supposed to have will repeat this abominable untruth what can you expect of the thousands of ignorant people who make the same charge? La Follette should have known better; rich men have been hardest hit in the way of war taxes and their sons have enlisted just as the sons of the poor men. No discrimination has been shown. Only this week an Indiana rich man, Dan Reed, gave nearly \$200,000 to purchase a field hospital outfit; this is only one of the hundreds of big gifts rich men have been taxed for this war as they have never been taxed before. Rich men have dropped their work to assist the government; they have done it uncomplainingly; let us be honest enough to give them proper credit for what they have done. Don't lie about it.

EEL RIVER BAPTIST CHURCH DEDICATED
More Than 1,000 People Attended the Exercises
Last Sunday.

(Special to The Sentinel.)
Columbia City, Ind., Oct. 22.—Over 1,000 people attended the dedication of the new \$14,000 Eel River Baptist church Sunday, several people being present from this city. The speakers for the morning, afternoon and evening were Rev. Carlos Dinsmore, state superintendent, and Rev. F. G. Huntington, district field worker. By the time the last meeting was closed, more than the \$7,500 outstanding on the building as a debt had been subscribed. The new structure is of steel-brick, simply arranged for 600 persons, and with a basement, modern lighting system and fine art glass windows. The pastor of the church is Rev. J. W. Bradbury, of Chubbuck.

Columbia City Brief Notes.
A. T. Baker, of this city, has learned from his son, Leman Baker, that he passed successfully the examination for entrance into the aviation corps at Ithaca, N. Y., where he went on an eight-day furlough from Camp Taylor, Ky. Baker will return to the camp and await orders sending him to some aviation school.
Mrs. James Colchin and daughter, Clara, left for Auburn Tuesday to attend the funeral of the former's nephew, Ralph Kinney, 23, who died in Toledo, his home, Sunday evening.
The Boy Scouts sold \$3,150 worth of Liberty bonds in the city on their Saturday drive, according to an announcement made Monday by Scoutmaster John T. Clapham, and the largest single subscription was \$500. Their work closes Thursday evening, when the totals will be announced.
S. Lorber and family and Mr. and Mrs. Moss Strouse spent Sunday at Indianapolis with Edward Lorber and Dalph Strouse, who obtained an over-Sunday furlough from Camp Taylor, Ky.

Still remaining as pastor of the Zion Lutheran church in this city, Rev. H. G. Jungkuntz Sunday preached his farewell sermon at the St. John's united church southwest of the city, and next Sunday installs as pastor of the church, united from the former St. John's and St. Peter's congregation, Rev. Walter Klausung, former assistant professor of Concordia college, Fort Wayne. Rev. R. A. Helms delivered his farewell sermon at the English Lutheran church in the Eberhard settlement Sunday and next Sunday preaches his last sermon at the Funk church south of South Whitley. Rev. Helms goes to Butler, and no successor has been named for the local circuit.

Paulding Shaffer, aged 3, foster-son of Mr. and Mrs. Philip Rouch, received badly punctured lips and lacerations of the nose when he fell against a step Sunday while playing, and Dr. Ben Lindvall was called.
Mrs. Anna Hildebrand and sister, Miss Sarah White, and the former's sons, Thomas L. and Edgar Hildebrand, motored to New Haven Monday to attend the funeral of Roderick White, brother of Mrs. Hildebrand and Miss White.

Warren Souder, arrested Saturday evening for drunkenness, is now lying out a \$11 fine in the county jail. He was tried before Mayor Frank L. Myers Sunday.

Not enough interest seems to have been manifested in the Red Cross sewing work in this city, and the chairman of the committee, Mrs. David Grund, who is willing to put in as many afternoons as possible to make Columbia City a factor in this work, hopes for a much larger attendance.

Boyd Logan, son of Mr. and Mrs. Hugo Logan, of this city, has made the college golf club at the University of Michigan, where he is a freshman.

Only 250 tons of coal are on hand at the city power, light and water plant and steam exhaust plant, and firms handling orders for the city of Columbia City write they are unable to get further coal supplies. Several cars to coal destined for Columbia City are now enroute "somewhere," but they do not look promising for arrival, and Supt. Frank Schultz fears current may be shut down at 9 or 10 o'clock in the evening, to be resumed in the morning. It requires about twelve tons of coal daily to heat the municipal plant, and the present supply will last less than a month.

Dale, 6-year-old son of Mr. and Mrs. Dorsey Geist, of Tunker, died Monday afternoon at 1:40 o'clock following a short illness from sugar diabetes. He leaves his parents and three sisters, Fern, Vera and Imogene.

Dr. Frank Brand, of Knox, son of Postmaster and Mrs. J. W. Brand, of this city, has reported to Camp Randall, near Champaign, Ill., an aviation camp, for duty as first lieutenant in the dental surgical corps.

H. B. Easty, of near Roanoke, is perhaps fatally ill with a growth on the interior of the skull that has affected his left side. He will be taken Wednesday to Fort Wayne for examination by a specialist in the hope that the growth may be removed and his life saved.
De Foe Mosher has been certified for war service to the district board by the Whitley county exemption board.

"The Katzenjammer Kids" Cartoon Musical Comedy, Today, Matinee and Evening.

Gazolo, Gatts and Clifford, the producers of "Katzenjammer Kids," the newest song, dance, fun and girl show, made from the original comic supplement cartoons, were fortunate in locating the right players to portray the animal characters that appear in their big spectacular production. The actors who portray the bear, the goat, the dog and the tiger in "Katzenjammer Kids," are considered the most valued members of the company because pantomime players who can give correct impersonations of the actions of animals are very hard to find.

"The Katzenjammer Kids" are at

"Good Gracious Annabelle" at Majestic Wednesday Evening.

In "Good Gracious Annabelle," Arthur Hopkins, the producer, has sought to give a discreet, modulated, and swiftly moving performance. His success has come through appreciation of the taste of American audiences—a taste for fresh ideas against novel backgrounds. The special stage settings were designed and painted by Robert Edmund Jones.

"Good Gracious Annabelle" is from the pen of Clare Kummer, the much discussed American playwright, who gained fame in the writing of this comedy, although it was her first attempt in this new field.

The play follows the fortunes of the woman of the title "Annabelle" in

AT THE PALACE

KEEPS FIT FOR ARMY.

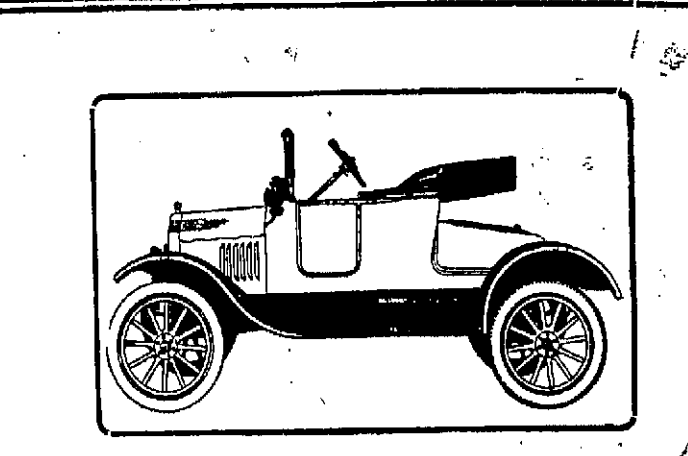

James Lichter, at Palace, Expects to be Recalled Soon.

In the expectation that he will be recalled to the training camp at Sea Girt as an instructor, James Lichter, who spent three months this spring and summer in the camp instructing recruits in the fundamentals of the manual of arms and the maneuvering of companies, is keeping himself fit by long walks and constant practicing of the manual himself. He is appearing at the New Palace in a pianologue, but every morning finds him "on the road" doing a stretch of six or seven miles, so that when his call comes he will be ready to start right in where he left off. He starts a squad of actors and stage employees drilling in every house he plays in and has done recruiting work all over the country. Incidentally Mr. Lichter is of German parentage.

The bill for the first half of the week is a speedy one. Herbert Clifton, one of the pets of the big cities, is doing his absurd female impersonation in which he employs a wonderful falsetto to good effect. A troupe of five men and a girl stage an Hawaiian medley of song-instrumental numbers and the hula hula. Alfred Latell, the animal actor, assisted by Elsie Vokes, is doing a dog impersonation that is a riot. George Bobbe and Eddie Nelson, two singing funsters, that can sing and are funny, are a welcome relief from the ordinary vaudeville team.

SOCIETY

Mrs. Howell C. Rockhill gave a luncheon of very lovely appointment at the Country club today to honor Miss Nellie Wilt, a bride-to-be of the week. The table was laid for fourteen and the decorations were exquisite arrangements of pink roses, rubum lilies and ferns which filled a French basket in the center of the table. There were coronas of roses and lilies for each guest.

Mr. and Mrs. A. J. Vesey, Mrs. Will Vesey and Mrs. John Vesey have returned from a trip to Camp Taylor, Louisville, to visit Will Vesey.

Mr. and Mrs. Herbert Willis and son, of East Sutherland street, have returned from a week's visit in Detroit with Mr. and Mrs. Harry Austin, former residents of this city.

Hayes-Kuntz.

One of the prettiest weddings of the month was that of Miss Ruth Gertrude Kuntz and Mr. Tom Hayes, which took place in the Cathedral of Immaculate Conception at 9 o'clock Tuesday morning. Rev. John R. Quinlan officiated at the nuptial mass. The bride entered with her uncle, Mr. Frank Bougher, and was attended by a sister to the groom, Miss Loretta Hayes. The groom was attended by Mr. George Kuntz, the bride's brother. The ushers were Mr. Frank Mills and Mr. Arthur Degitz. The bride presented a lovely appearance, her wedding costume enhancing the sweetness and beauty of her face. The bride wore a brown chiffon velvet suit with blouse of brown georgette crepe trimmed with gold lace and having a touch of turquoise satin under the crepe. The bride's hat was a combination of brown and sand color velvet with ostrich feather trimming to match the crown of sand velvet and she wore a corsage of sunburst roses and orchids. Miss Hayes looked very handsome in a gown of peacock blue crepe de chine trimmed with silver and moleskin and having modish chiffon sleeves of blue. Miss Hayes' hat was made of velvet and moleskin to match her gown and trimmed with silver lace and a pink rosebud to brighten it and she carried a bouquet of Orphelia roses. The wedding breakfast was served to thirty people at the home of Mr. and Mrs. Bougher in Forest Park boulevard. The house was bright with flowers and the bride's table was laid with handsome service and was ornamented with a bride's cake, crystal candelsticks tied with pink tulle and holding pink candles, and with pink roses. Later in the day Mr. and Mrs. Hayes left for Chicago for a few days. After the first of December the bride and groom will be at home to their many friends at 3329 Webster street, where they are going immediately to housekeeping in their own home. Mr. Hayes is a machinist in the Washburn shops and he enjoys, with his bride, the esteem and affection of many friends.

Save Wheat For Allies By Using Vegetables

BY BIDDY BYE.

Women who are honestly interested in saving wheat can do so by serving more vegetables on their dinner tables. Vegetables are not a substitute for bread but they are wholesome and "filling" and are usually a great benefit to the individual who is inclined to eat more bread than he requires.

As vegetables are usually boiled, the most valuable salts are diluted in the water and thrown away. The best way of cooking vegetables is to steam them, or boil them in so little water that all of the liquor is absorbed.

Vegetables can be steamed in an ordinary colander placed over a kettle of

boiling water, provided the colander is covered so closely that the vapor cannot escape.

Vegetables served au gratin, or escapeloed, are sometimes used for breakfast dishes.

BOILED CABBAGE.

Wash the cabbage thoroughly and place it in a pint of boiling water. Boil the cabbage for one minute. Strain away the water and pour in a half cupful of fresh boiling water salted with half a teaspoonful of salt. Don't cover the pan; cook until tender, which will take from 30 to 35 minutes.

Another way is to put an ounce of butter into the pan instead of the second water, and let the vegetables stew until tender.

CURRIED VEGETABLES.

Cut in dice one cupful boiled potato, one cupful boiled carrots, one-half cupful boiled turnips and one-half cupful of left-over peas. Cook three slices onions in three tablespoonfuls drippings five minutes. Remove onion and add three tablespoonfuls flour, one teaspoonful curry powder, one teaspoonful salt, one-quarter teaspoonful celery salt, one-quarter teaspoonful pepper and one and one-half

cupfuls milk. Stir until smooth, then reheat vegetables in sauce.

CREAMED BEETS.

Any left-over beets that have been served with butter and no vinegar may be creamed. Chop them coarse and to each cup of beets allow one cup of white sauce.

PARSNIP CAKES.

Use left-over boiled, buttered parsnips for making these cakes. Mash and season with salt and pepper, make into flat, round cakes, dip in flour and fry in hot melted drippings or butter.

CELERY TOAST.

Take the outer and lesser tender stalks of celery that are often thrown away, cut them into half-inch pieces and cook in slightly salted water until tender. Drain and use half cupful of this water and half cupful of milk to make a white sauce. Add the celery to the sauce and pour over slices of nicely browned and buttered toast. Serve very hot.

If cleverly worked out, is sure to prove amusing. One corner of the room should be arranged to resemble a miniature drug-shop. Dr. Cupid and his assistant

The Attack at Antwerp and The Slash at Seattle

President John H. Walker of the Illinois
State Federation of Labor

Brings 800 Delegates to their feet with cheer
That Lasted 10 Minutes and Carried 3 Blocks

"If we are opposed to the war, then we are aiding the enemy. The war was not of America's seeking after Germany instituted submarine warfare against our commerce. Thus they deprived men who work upon the seas of a right to earn a living, in violation of every law known to mankind, besides killing women and children. This government was patient, but there is no compensation for the loss of life.

The Attack at Antwerp Shows German Stand

"While at a miners' convention in Antwerp we considered a resolution to call a strike in all the coal mines in any country that would institute war of aggression or for annexation of territory. The German delegation asked for a recess, and upon its return said that if such a resolution were adopted their organization would be disrupted, their membership penalized for treason, and their personal goods seized."

The Slash at Seattle Shows German Stand

"Samuel Gompers, at the Seattle convention of the American Federation of Labor, sought to form a world congress of what was left of industry with the purpose of demanding the disarmament of all nations. The German replies were that if such a thing were mentioned in Germany, the promoters would be regarded in the light of traitors. With all these things in Germany, there is one thing we have here, by God, and that is the right to fight."

"If there's anything on earth that I can do to win this war, if it's in my power, I'll do so. I have no more feeling against the German people than I have against my mother and my brother, but I tell you that no beast like the Kaiser can dominate the world."

Nuxated Iron Makes Strong, Vigorous, Iron Men and Beautiful Healthy, Rosy Cheeked Women

Dr. N. H. Hornstine for ten years in the Department of Public Health and Charities of Philadelphia, says:

"The administration of Nuxated Iron in a number of stubborn cases where other tonics had utterly failed only served to convince me absolutely of its remarkable and unusual power. When I personally took it I found the rapidity with which my energy and endurance increased most surprising. The fact that this preparation of iron does not injure the teeth, makes it especially desirable. In my opinion the widespread use of Nuxated Iron is bound to make a nation of stronger men, lovelier women and healthier children."

Dr. James Louis Beyer, for 15 years Adjunct Professor in the New York Homeopathic Medical College, says: "I am nearing my 80th birthday, a short course of Nuxated Iron has made me feel like a new man. Friends say, 'What have you been doing to yourself; you look so well and full of life?' In my opinion there is nothing like organic iron—Nuxated Iron—to put youthful strength and power into the veins of the weak, run down, infirm or aged."

Former Health Commissioner Wm. R. Kerr, of the City of Chicago, says: "I am well past my three-score years and want to say that I believe my own great physical activity is due largely today to my personal use of Nuxated Iron, and if my endorsement shall induce anemic, nerv-

ous, run-down men and women to take Nuxated Iron, and receive the wonderful tonic benefits which I have received, I shall feel greatly gratified that I have made an exception to my life-long rule in recommending it. From my own experience with Nuxated Iron I feel that it is such a valuable remedy that it should be used in every hospital and prescribed by every physician in this country. Nuxated Iron, recommended above by Dr. Hornstine and Beyer and Former Health Commissioner Kerr, is for sale by Greiner Drug Co., Meyer Bros. Drug Co., Geo. F. Miller, The Family Drug Store and all good druggists on an absolute guarantee of success and satisfaction or your money refunded.

See! That thro' stuff (Nuxated Iron) acts like magic. It certainly puts the ginger of youth into a man.

NEW WAR SONG.

Written by Mrs. Julia M. Baker Stapleford, Formerly of This City.

Julia M. Baker Stapleford, of Colorado Springs, Col., formerly of this city, has recently published a new song entitled "Mother Dear, That's Why I'm a U. S. Soldier Boy." The song is dedicated to the mothers who are giving their boys to their country's service. The Colorado Springs papers speak of the song in highest terms, declaring it to be cheering and not lacking in the military jingle.

CHILD'S TONGUE BECOMES COATED IF CONSTIPATED

When Cross, Feverish and Sick
Give "California Syrup
of Figs."

Children love this "fruit laxative," and nothing else cleanses the tender stomach, liver and bowels so nicely. A child simply will not stop playing to empty the bowels, and the result is, they become tightly clogged with waste, liver gets sluggish, stomach sour, then your little one becomes cross, half sick, feverish, don't eat, sleep or act naturally, breath is bad, system full of cold, has sore throat, stomach-ache or diarrhea. Listen, Mother! See if tongue is coated, then give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated waste, sour bile and undigested food passes out of the system, and you have a well, playful child again.

Millions of mothers give "California Syrup of Figs" because it is perfectly harmless; children love it, and it never fails to act on the stomach, liver and bowels.

Ask your druggist for a bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Beware of counterfeits sold here. Get the genuine, made by "California Fig Syrup Company." Refuse any other kind with contempt—Advertisement.

Socialist Steps Out of Party and Office

TYLER L. LAWTON

For four years Bicknell, Ind., boasted of her socialist mayor, the only one Indiana had. Now she is more proud of him than ever, even though he is neither socialist nor mayor. Tyler G. Lawton resigned his office and quit the socialist party because he didn't agree with the nagging policy of the socialist party toward President Wilson. Elected by the socialists he thought it his duty to resign the office when he quit the party.

You Cannot Know True Comfort and Economy Unless You Heat With a FLORENCE

Hot Blast Heater

With wintry days coming on at a rapid pace the thoughts naturally turn to warmth and comfort in the home. No need to worry about your heating troubles further. Place a Florence Hot Blast heater in your home now. It will end stove troubles forever and besides insure you a warm comfortable home during the winter weather, and cut a generous slice off of your fuel bills.

Burns soft coal or slack and all the smoke and gases. No filling up of stove pipe or flue with soot, AND IT WILL NOT PUFF. It will burn hard coal and all the gases which escape from a hard coal base burner. It will burn wood or sawdust, wet or dry. It will produce one-half less ashes with any kind of fuel and leaves no clinkers or half-consumed fuel.

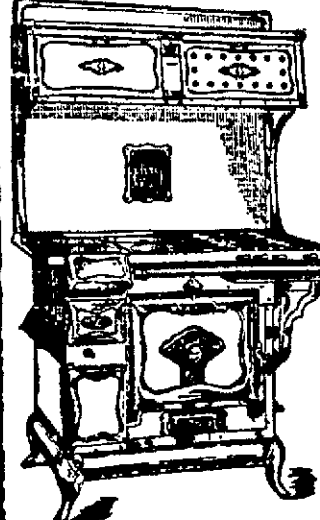

THE FLORENCE is the greatest stove ever invented and its years of practicing what the originators intended it should do proves that it is the stove you and every other householder should have.

We are always pleased to demonstrate it and invite you to come in for a practical showing of the reasons why it does all that we have claimed for it here. Seeing is believing.

Duplex ALCAZAR

TWO RANGES IN ONE

ALADDIN'S LAMP was no more wonderful than the Duplex Alcazar Kitchen Range. Here we have a double-duty range that heats as well as cooks and one that can be operated on either coal or wood and gas, separately or a combination of both fuels when desired.

With the Duplex Alcazar you can cook in comfort every month of the year, enjoy real convenience and practice economy.

You can burn coal in the winter and keep the kitchen warm; gas in the summer and keep the kitchen cool.

Simply "PULL or PUSH Lever" and Oven is ready for use for either coal or gas. And without removing or replacing a single part.

While the Alcazar is really two ranges in one, it is very compact and attractive in appearance, extremely simple in operation, and a favorite with the practical housekeeper.

The Duplex Alcazar Range is the outgrowth of modern necessity. It is the range for the "Twentieth Century Home."

WILSON MAY COME HERE

President Has Been Asked to Unveil Anthony Wayne Monument
CEREMONIES WILL BE HELD NEXT SPRING
Statue Will Be Set in Place During the Winter Months.

Following the upsetting of all original plans for the dedicating of the Anthony Wayne monument, by delay in securing the base for the statue, an effort is being made to have President Woodrow Wilson speak here when the monument is unveiled.

The Wayne memorial will be officially disclosed to the public on some historic date next spring. The secretary to President Wilson has written to the members of the committee in charge of the dedication ceremonies stating that the president will come to Fort Wayne if congress is not in session at the time and if national affairs are in position to allow his leaving Washington.

The effort to bring President Wilson here will be continued by the committee. The unveiling of the cenotaph in honor of Fort Wayne's hero will be one of the most impressive ceremonies ever witnessed in the city, it is planned. All school children will have a part in the service.

Lexington day, on April 19, may be taken for the occasion of the "dedicating of the heroic statue. Other historic days have been suggested to the committee in charge and an effort may be made to pick a memorial instance from the struggles of the old Fort Wayne days. The date of all important Indian engagements in connection with the early fort will be learned.

The granite base, upon which the statue proper is to stand, cannot be shipped from Vermont before the last of November or the first of December, the monument committee has been notified. Labor troubles and shipping difficulties occasion the delay.

The base will be installed and the statue set in place during the winter months. The entire stone structure will be encased in a large framework until the date set for the unveiling.

Soldiers Take Bonds.
Henry Becker, clerk to the board of works, has received a letter from his son, Roy, a member of the signal corps, now stationed at Camp Shelby, Hattiesburg. The young man states that soldiers in the camp have signed up for a million dollars worth of Liberty bonds. Roy writes that the signal corps men are thriving on army life.

Laying Top.
The Grace Construction company workmen are laying top dressing on West Brook drive in the Brookview addition. When this job is finished the task of laying top on Lafayette street from Wiebke to McKinney avenue, will be started. Concrete work has also been started on Grace avenue from Broadway to Fox avenue.

MUST GIVE MORE.
City Sealer Demands Full Weight in Potato Sales.

City Sealer and Deputy Food Administrator Berry Tolan has answered several complaints of short weight within the past few days. In the instances where short weight was in evidence the vendors pleaded a mistake in delivery and promptly made up the amount.

Tolan has grown to believe that several vendors are deliberately trying to cheat housewives and he is setting out to break up any such practice. In future cases of short weight prompt prosecution will follow, regardless of the excuse, Tolan gives out.

"When food is the most valuable product in the world I am not going to have any cheating," said Tolan, Tuesday morning. "Buyers must get what they pay for."

The city sealer advises all housewives to purchase a set of scales and to weigh every bit of food brought into the home. The city office will furnish cards bearing the exact weight demanded for measures of all vegetables and fruits.

MORE LEAF TROUBLE.
Controller Will Be Asked for \$3,000 for Street Cleaning.

Heaps of fallen leaves along the street and other debris raked out upon the pavements is causing the street cleaning department to work overtime these days. The litter must be removed from the avenues or drain ways will be clogged with the coming of more showers.

The board of works decided, on Monday afternoon, to ask Controller Baade for \$3,000 more money for street cleaning purposes. If the amount is allowed it is to be given up at once. In this fund will be included the hauling of leaves to the back yards of all citizens who request the use of such fertilizer.

The contract for the grading of Holton court was awarded to Grosjean & Roemer by the works board. The Edmunds Electrical Construction company was given the contract for installing ornamental lights on Delaware avenue.

Plat for the Homestead addition and for Liberty gardens were approved by the board.

FAIR PRICE FIXED FOR FOODSTUFFS

First in History of United States Government Dictates What Shall Be Paid.

Chicago, Oct. 23.—For the first time in the history of the United States a government representative has fixed a "fair price" of certain food stuffs. Harry A. Wheeler, a food administrator of Illinois, today announced the proper prices for sugar, potatoes and flour. Grocers for the most part have agreed to put the prices into effect. They are somewhat lower than recent prices in Chicago and about two cents in the retail price of sugar.

Mr. Wheeler's list gives the price which the retailer should pay the middleman and the price which the customer should pay over the counter. Other prices for staples will be announced as fast as possible.

The Price List.
Today's list follows:
Flour, well known advertised mill brands, running four bags to the barrel, per bag, retailer pays \$2.80 and \$2.92; customer pays \$2.95 and \$3.18.
One-eighth barrel flour in cotton bag, per bag, retailer, \$1.42 and \$1.48; customer, \$1.49 and \$1.60.
Five pounds four cotton bags, per

dedication of the Lincoln cabin, now being built in Foster park. The log hut, a replica of the Lincoln homestead at Hodgenville, Ky., is being erected at a rapid rate and should be completed in two weeks.

Dedication of the memorial to the birthplace of Abraham Lincoln will not take place until early next spring, however, it is being planned. It is expected that a speaker of prominence will be engaged. There will be a community song service about the cabin.

The exact reproduction of the Lincoln home is being made possible by the Lincoln Life Insurance company, which corporation is paying all expenses in connection with its construction. The park board will later arrange to have the cabin filled with historic relics. The famous Gettysburg speech by Lincoln will be framed and placed on the wall.

LET PUMP CONTRACT.
Frank Kintz Will Install Morgan Street Apparatus.

The Kensington Park Improvement company has let the contract for installing of the Morgan street sewage pump to Contractor Frank Kintz. The entire cost of arranging for the auxiliary Lakeside pump will be about \$2,500.

The pumping system for Lakeside in time of flood condition has now reached a capacity of 8,000 gallons a minute. The Morgan street pump will be put in at once.

Will Start Work.
Work of tearing down the old Wabash station, just east of Calhoun street, will start at once, city officials have been told. The Wabash railroad took out a permit on Monday afternoon for razing the structure which was used for a passenger depot for many years. The building will give way to a structure which will hold the yardmaster's office, tool room and section men's headquarters.

Contingent Report.

face, giving the name of the operator or jobber with whom they customarily deal, and the amount of their requirements. In these cases the administrator or after such investigation as may seem advisable will try to arrange for rat-a deliveries. Inasmuch however, as these deliveries may be by operators or jobbers to whom the responsibility of the respective dealers is unknown it is necessary that each dealer request to the administrator for coal be accompanied by his banker's guarantee of the bill. In handling these requests the administrator for the present at least has no other resource than Indiana operators and jobbers. With these he is dealing mostly through the established organizations and is finding willing co-operation. Alexander Holliday is in charge of this work.

STATE 2-CENT FARE IS HIT

Federal Judge Anderson in Decision Holds It Unconstitutional and Void.

APPLIES ONLY TO ONE RAILWAY LINE
Evansville & Indianapolis Road Protected, But It Jeopardizes Law.

Indianapolis, Ind., Oct. 23.—The Indiana 2 cent railroad fare law as it applies to the Evansville & Indianapolis railroad running between Terre Haute and Evansville was held unconstitutional and void today by Judge A. B. Anderson, of the United States district court here. The ruling was made when the court granted the petition of William Kappes, the receiver of the railroad, to increase passenger and freight rates and also switching charges. Mr. Kappes said he could not predict passenger rate increases as yet. The revenue of the road has not been sufficient to meet its expenses.

Although the decisions to the validity of the rate law was made effective as to the Evansville & Indianapolis railroad, its effect is to permit the receiver to increase rates regardless of the state law.

Lawyers say that if the state officials should attempt to compel the receiver to charge the rates fixed by the Indiana law the whole question of the 2 cent fare statute as it affects all railroads would get into federal court and result in a decision affecting all rates in the state.

The receiver was given permission to apply to the federal court for an injunction against state officials should they attempt to prosecute him for charging more than 2 cents a mile for passenger fares, or increasing other rates.

DEMOCRACY IS ON TRIAL THIS WEEK
Rev. A. J. Folsom Gives Strong Address Before Kiwanis Club.

"Democracy is on trial before the world this week," proclaimed Rev. A. J. Folsom in a ringing address before twenty-five members of the Kiwanis club at the Anthony hotel, Tuesday noon.

"The outcome of the world war depends upon the sacrifice that followers of democracy are willing to make this week for the carrying on of the battle to the death," Rev. Folsom went on. "If America does not respond patriotically now her heritage may be lost in the crash of Teuton guns."

Members of the Kiwanis club were moved by the address to the point that they subscribed \$3,500 towards the loan drive.

Rev. Folsom spoke at length on the growth of the ideal of service in the world. If democracy wins the war, he pointed out, all efficiency will be turned into lanes of service and a finer brotherhood will bless every nation.

LIBERTY LOAN HAS 1,407,600

First Half Day of Big Drive Finds Entire County Aroused.

CITY TEAMS REPORT SALE OF \$254,700

Women Have Sold \$27,500 Worth of Liberty War Winners.

The Kaiser's throne was shaken by the first report of Allen county's Liberty loan drive. The first half day of the great dollar mustering effort finds a total of \$1,407,600 subscribed in the county.

Thirteen of the Fort Wayne city teams, including the two women's teams, announced the sale of \$254,700 worth of bonds during the opening hours of the effort. In the originally subscribed amount of \$1,529,000 there is \$750,000 from the city banks, \$25,000 from Niezer Brothers, \$10,000 from Mossman, Yarnelle & Co., \$25,000 from the Home Telephone company and \$25,000 from the Medical Protective association.

Cheers, shouts and bits of song shook the auditorium of the Elks' temple Tuesday noon as marks of the spirit which animated the first luncheon of the four day campaign.

Harry G. Hogan, director of teams, mounted the platform at the close of the luncheon and announced that a total of \$1,529,000 had been subscribed previous to the opening of the campaign. Several mixups and overlapping of territorial efforts were ruled upon by the director. The reports of the various teams as given by their captains, beginning with the smallest report and closing with the largest, brought increasingly boisterous applause and choruses of congratulation and commendation.

The ladies' tables were the center of activity as the members compared notes previous to the call to order. The "Betsy Ross team," the makers and defenders of the flag (so their banner read) and the "Clara Barton team," who "keep the Red Cross shining" were the center of interest for the gentlemen. The rivalry which surrounded the intensive four-day campaign. It is a foregone conclusion that the women's teams are made up of real loyal patriotic workers. Mrs. A. S. Bowser's (Betsy Ross) report of the sale of bonds to the amount of \$12,500 brought a display of enthusiasm barely exceeded by that following the announcement of Mrs. C. J. Schoof, of the "Clara Barton," who reported \$15,250.

Team Reports.
The reports of the fourteen city teams, including the number of subscriptions, follows:
Team No. 1—Anthony Wayne team; Martin Lucke, captain; 148 subscriptions, \$49,150.
No. 2—Woodrow Wilson team; Steven Callahan, captain; 1 subscription, \$2,500.
No. 3—Teddy Roosevelt team; J. Wade Bailey, captain; 132 subscriptions, \$60,250.
No. 4—Admiral Benson team; Harvey Crane, captain; 105 subscriptions, \$5,050.
No. 5—Abe Lincoln team; Max Blitz, captain; 61 subscriptions, \$7,050.

No. 13—Clara Barton Women's club; 39 subscriptions, \$15,950.
No. 14—Factory team; Henry Beadell, captain; did not report.

"Over There" Big Hit.
Mrs. Robert W. Fowler ("Betsy Ross") in her song, "Over There," set the company wild with enthusiasm, and led in repetitions of the chorus of the ringing Colman song. Bobbe and Nelson, who are appearing this week at the Palace, contributed a number of patriotic songs to the program during the luncheon.

All automobile owners in Fort Wayne are asked to honk their horns and make the freest use of their noise-making accessories between 12 and 12:10 o'clock each noon of the campaign. The request also includes the factory whistles.

Captain John Lichtner, who is on leave from an officers' training camp in the east, urged the banquets by a series of big calls.

Fifteen young women in Red Cross attire aided in serving the banquet. Above each table there was a placard bearing the name of the organization. About the walls of the auditorium were draped a dozen large American flags.

When the cheering had died away after the announcement of the Liberty Loan total the audience arose and joined in singing "America" as the closing number of the banquet program.

Put "A" in Patriotism.
"If you can't put the 'I' in fight put the 'A' in patriotism," is the slogan which is sweeping Allen county with a host of Liberty Loan workers. Every man, woman and child in the county is expected to hear the patriotic appeal for "Kaiser busters."

A million dollars a day must be raised if the full quota of the county is reached. Loan workers expect Allen county to over-subscribe the work.

FORT WAYNE HAS FIRST SNOW STORM OF SEASON

Snow Starts Falling at Five O'Clock and Continues All Day.

Fort Wayne dealers are dusting off their stock of Christmas decorations and the youngsters are polishing the runners on their sleds, for Fort Wayne is fast assuming holiday weather. The snow of Tuesday morning took practically everybody by surprise. Construction companies were having and building jobs. Park board employees placed their tree-spraying apparatus upon the street, while the street cleaning department kept its doors closed tight all day. As the snow began to fall heavier Tuesday afternoon the city seemed more wintry than ever and some more enterprising youngsters even went so far as to start the foundation of a snowman.

BANDIT LIFE APPEALS TO FORT WAYNE YOUTHS

With the vision of countless school days behind them and the rosy dawn of the life of a bandit before them, four Fort Wayne boys started on a long tramp to the southern part of the country Monday. The youngsters are Earl Bell, 12, 1915 West Fourth street; Fred Harold, 16, Charles Burton Harris, 15, 1915 West Fourth street. The four youths took four automobile blankets from various cars and started upon their long walk. They caught a freight and rode as far as Hillsdale, Mich., where they were put off.

They then walked to Bluffton, and having by this time found that they weren't quite so ready to run away after all, started to return to Fort Wayne. They were met while on their way by some man in a machine who gave them a ride up to the county farm.

When brought to the station by the wagon crew and Officers Immel and Eisenhut the lads professed themselves to be ready to resume the life of an ordinary Fort Wayne boy.

BIDS OPENED FOR HOSPITAL

Commissioners Not Certain Enough Money is Left to Furnish It.

ANTI-TUBERCULOSIS OFFICIALS CALLED

If They Say Go Ahead Contract Will Probably Be Awarded.

If \$13,864 is sufficient with which to pay for the purchasing, equipping, purchasing of medical appliances, terracing the ground, putting in driveways and paying for architects' fees and a hundred and one incidentals, the contract for the construction of the Anti-Tuberculosis hospital will be awarded. Bids were opened Tuesday morning by the county commissioners and it was found the total cost of the building without the items mentioned above will approximate \$86,136. The county has just \$100,000 available for the entire completion of the hospital.

After the bids were opened the county commissioners called a meeting of the officials of the Anti-Tuberculosis League and if they decide that they can do the things required after the completion of the building of \$13,864 it is very probable that the contract will be let.

Lowest Bidders.
The lowest bidders were the following: Indiana Engineering & Construction company, general contract, \$44,290; Schwegman & Witte, steam heating, \$3,371; P. B. Arnold company, plumbing, \$10,126; P. B. Arnold company, wiring, \$1,289; P. B. Arnold company, electric light system, \$1,600; Fort Wayne Plumbing and Heating company, for well, \$270 a foot, totaling approximately \$900. This brings the total up to \$86,136.

Other Bidders.
Other bidders for the general contract and the amount of their bids follow: Henry C. Hockemeyer, \$69,950; John Suelzer, \$68,875; W. F. Peterson, \$65,125; Henry Hageman, \$68,875; Max Imracher & Sons, \$73,102.

Divorces Granted.
Two decrees for divorce were granted Monday afternoon by Judge Carl Yapple in the superior court. Dorothy Van Toehine was given a divorce from Joseph I. Toehine and the custody of their two children. Charles Kerber was granted a divorce from Maud Kerber, 3211 South Calhoun street.

Title Quoted.
Judge Yapple, in the superior court, has quoted the title as prayed for to some real estate in the case brought by Frederick D. King against William S. Edsall.

Youse Will Filed.
The will of the late Sarah J. Youse has been filed for probate. The deceased divided her estate equally between her ten children as follows: John S. Youse, A. Edward, Nelson H., Oliver W. HERE'S KIND OF A SCHOOL LESSON THAT SEEMS LIKE SOMETHING ELSE

These kiddies are studying. Such a statement may seem strange to Fort Wayne boys and girls who associate studying with books and school desks. But these children are learning arithmetic in one of New York's Montessori schools, where one studies and learns things while one plays and has a good time. In the accompanying picture the little girl is being weighed, and the boy is the weighman. Thus he learns figures and how to add them. Then the little boy is weighed and the girl subtracts weights to see who is the heavier. Oh, yes, indeed, this is much easier and more pleasant than copying figures teacher puts on the blackboard and then adding and subtracting them until one's eyes ache and one wishes there never was such a thing as school.

Why the Railroad Problem Is YOUR Problem!

The railroads of the United States transport a billion tons of freight annually—50 tons to a family. This freight represents the business activities of the nation.

It is therefore of the utmost importance to every family in the land that railroad facilities be ample to meet the burden of increasing commercial and military necessities.

Your prosperity is at stake.

The New York Central Lines "America's Greatest Railway System"

in common with other railroads, must buy new cars and locomotives, build new tracks and terminals and in other ways expand their facilities in order to do their part in meeting the growing service demands.

You, the people, and the custodians of your savings—the banks, insurance companies, trust companies, etc.—will invest, and make possible the necessary expansions, only as rates and regulations permit the railroads to pay a return that will compare favorably with other investments available to you.

ED ROBINSON HAS

WONDERFUL DREAM

Regarding the Finding of a
Rich Oil Vein on His
Farm.

(Special to The Sentinel.)

Zanesville, Ind., Oct. 23.—County Commissioner John Frough came to town and tells of a wonderful dream Ed Robinson had the other night regarding the oil well that is being drilled on his farm. The Wilson Oil company was organized on a "hunch,"

some fellow having had a dream that oil in great pools lay under the soil in the whole of Union township, but the first well was a duster. However, the boosters in the company, of whom Ed Robinson is one, still have been breathlessly waiting for a sign, or a dream, and Ed had it Saturday night.

He dreamed that at a depth of something over a thousand feet the driller, Mr. Greene by name and by the way had struck a vein of oil that shot the murky, sticky stuff clear over the derrick and that up to the time of waking up the united efforts of all mankind had failed to stop the flow. The stockholders of the company are putting some stock in Ed's dream, but some thing it was not of the genuine sort and was an artificial slumber, as Ed had been seen leaving town with a sack of buckwheat the night before and the family had finished the yearly butchering that day.

INDIANA MEN ARE SHOWN BUCKEYE PLAYS

Stiehm Gives Squad New Formations in Preparation for Ohio State Game.

Elmhurst, Ind., Oct. 23.—Introducing Ohio State plays, the Indiana freshmen hit the varsity line hard in a scrimmage drill yesterday after the regulars had been given a long workout on new formations that will be used against the Buckeyes in the coming classic at Washington park, Indianapolis.

Before the scrimmage started, Coach Stiehm told his men very plainly they need more "pep" and charge and he has planned the work of the next two weeks so they will get plenty of it. The Minnesota scouts who had watched the Crimson's three first games had taken home the correct dope for the Gophers were able to get the right man on Stiehm's aggregation before many of the plays had fairly started.

From the way Stiehm took hold yesterday it is very evident that the Indiana team that will meet last year's champs will be at least 100 per cent better than the one that played at Minneapolis. When the yearlings began their attack with Buckeye formations the big varsity men for showed every man in the line how to block and break up the plays. Fullback Howard and Guard Ewert were the only regulars not in the lineup. Both went to their homes for a brief visit after the game Saturday and are expected back tomorrow. Ewert proved a hero by remaining in the lineup to the end Saturday, although suffering pain. Between halves the brace was taken off his leg and just as time was called for the third period to start was put on again. Daltzell substituted yesterday for Howard and VonTress for Ewert. Capt. Hathaway took his old place in the line but still limps from his injury. The gates were open tonight but beginning tomorrow the lid will be clamped down tight for the next two weeks.

OGDEN AT QUARTER.

Buss Makes Other Changes in DePauw Lineup.

Greencastle, Ind., Oct. 23.—The shakeup on the DePauw team, the approach of which has been felt for some time, arrived yesterday. Ted Ogden, the sensational center, has been shifted to quarterback, while Winsland, Julian and Miller are being tried in the pivot position. All three men have the ability and it will be a battle for the place if Ogden's transfer to the backfield is permanent. Roysse was placed at halfback and Carlyle at left end. When called signals during a part of the practice. He probably will alternate with Ogden, and when not running the team will play a halfback position. In Royce Coach Buss has what he has looked for all year—a real line plunger.

A snappy line shift was used yesterday for the first time and the signal practice was a popper one. Scrimmage is scheduled for tomorrow and "sull" practice will be held every night this week in preparation for the fray with St. Louis Saturday.

NO WABASH MEN INJURED.

Coach Townsend's Players Out for Practice—Hannicker Improving.

Crawfordsville, Ind., Oct. 23.—Coach Townsend's Little Giants came out of the Rose Poly contest without an injury and were out again yesterday practicing through rain and mud. Scarlet followers expressed satisfaction over the result of the Rose contest. The fact that the engineers' 200-pound line was able to score only six points on Wabash shows the Little Giants have improved considerably and that Ike Williams's unrelenting push is showing results. Coach Townsend is very optimistic and says that polishing a few more rough spots will cause even more improvement. Capt. Hannicker's ankle, which has kept him out of the last two games, seems to be improving and there is a chance that he will be able to play in a couple of weeks. His presence, besides adding great strength to the line, would help to instill the necessary confidence.

UNCLE SAM'S LEAGUE.

New York, Oct. 23.—A football league comprising teams from the aviation field, Mineola, N. Y., and Fort Schuyler, Totten, Wadsworth, Jay and Slocum, has been organized by the New York Athletic club. The opening game will be played next Saturday. Each team will play five games, two at their home grounds, two at visiting grounds and one at Travers island. The club also is trying to organize a football league among the draft regiments at Camp Upton, Yaphank, N. Y., it was stated.

MASON FIGHTS AT ST. LOUIS TONIGHT

Frankie Mason, Fort Wayne's champion flyweight, and one of the cleverest boxers in the game, will fight Jimmy Ragan, who is said to be one of the classiest bantams of the west, at St. Louis tonight.

Ragan is much heavier than Mason. The St. Louis boy will have in the neighborhood of fourteen pounds advantage. However, this does not frighten Mason in the least. He realizes that if he is to continue in the fight game it will be necessary to take on men heavier than himself. There are very few flyweights in the country and certainly not many who can make it at all interesting for Mason.

JIM JEFFRIES IS SORRY.

Burbank, Cal., Oct. 23.—James J. Jeffries, who won the heavyweight championship from Bob Fitzsimmons at Coney Island June 9, 1899, with a knockout in the eleventh round, expressed deep sorrow today at the news of the latter's death. "He was a great old general," he said. "He was one of my best friends, and I am sorry he has gone." Fitzsimmons visited Jeffries on the latter's ranch near here about two months ago, when, Jeffries said, they "talked over old times."

TWO HURT AT HAMMOND.

Hammond, Ind., Oct. 23.—Two of Hammond's star football men were put out of business Sunday when Racine trampled over the local professionals. Longnecker, the Purdue star, sustained a broken shoulder, and Volkman, Hammond's giant right guard, got two fractured ribs and internal injuries. Neither man will ever play football again.

DOBIE'S FOOTBALL LESSONS

FALLING ON THE BALL

(By Gilmour Dobie.)

The very important fundamental, falling on the ball, is slighted altogether too much by many teachers. The best of teams fumble while on the offensive, and not only is it highly important that they themselves recover the ball but it is equally as important that the defensive side recovers the ball.

It is necessary to drill on this fundamental continuously and it is also very necessary that the players should be constantly on the alert for a fumble. Many of the

use the same powerful leg drive when he makes his dive for the ball and he should be able to fall on the ball either to the right or left.

In falling on the ball to his right the

most important games have their turning point because of a fumble.

The best method to use in falling on the ball is to have the runner approach the ball well crouched in about the same position used as when tackling. He should

player should allow his right arm to come down over the far side of the ball at the same time permitting himself to fall on his side or right hip and quickly closing in with his left arm and hand.

Of course when the ball is lying to the left the player should allow his left arm to close over the far side of the ball, falling on his left side or left hip and closing in on the ball with his right arm and hand.

TWO BIG AUTHORITIES AT STATE APPLE SHOW

Leading Horticulturists of Country to Attend Columbus Meeting.

Indianapolis, Ind., Oct. 23.—The Indiana Horticultural society announces that two of the foremost horticultural authorities in the world will appear on its lecture program Nov. 21-27, when the society holds its annual growers' conference at Washington, D.C., where the Indiana apple show also will be in progress. These speakers are Prof. John P. Stewart, of Pennsylvania State College Agricultural Experiment station, and Prof. W. H. Alderman, of the University of West Virginia.

Prof. Stewart has been conducting fertilization and cultural experiments in several apple orchards for a period of ten years. He will speak with authority on his investigations and their fruits. By variations in fertilization he has obtained differences in yield ranging from 8 to 460 bushels per acre annually over a period of five years. At current prices for apples this means a maximum net profit from intelligent fertilization of \$390 per acre.

Prof. Alderman, who judged the 1916 Indiana apple show so satisfactorily, will judge at least a part of the exhibits again this year. In addition he will make one or more lectures on some important phases of orchard management.

More than 400 bushels of apples are now in storage at Washington waiting for the time of the show, and an average of twenty bushels daily is going into the apple show room of the Ebbner Ice and Cold Storage company. In order to instruct the exhibitors in packing fruit for the show and also for market, Purdue university will conduct a two day packing school just previous to the opening of the great apple festival. The school will be held in the exhibit hall Nov. 19 and 20.

EMMANUEL SOCIETY TO GIVE WIENE SOCIAL

The Young People's society of the Emmanuel Lutheran church has announced a wiene social to be given at their hall on the evening of October 24. The affair will start as soon as the crowd has worked up a man's sized hunger. The site of the big eat will be at the school hall, corner Wilt and Union streets.

TWO CHORUS GROUPS IN "THE ARMY AND NAVY"

Director Davis is Enthusiastic Over Fort Wayne Talent.

"The Fort Wayne people are great in taking hold of a big production like 'The Army and Navy,'" declares W. Mills Davis, director of the big University club production, which is to be staged at the Majestic on the evenings of November 8, 9 and 10. Mr. Davis has been in the business of staging big amateur productions through-

out America, and his statement is not for effect or flattery. His sentiments have cropped out wherever a group of Fort Wayne people have gathered in the ballroom of the Commercial club to display their understanding of the parts which have been assigned to them in the forth-coming big spectacular musical-patriotic play.

Today, the University club announced two of the several large four hundred Fort Wayne people. These groups are "Widows," including Martha Tolan, Elizabeth Lane Porter, Elma Dixon, Gladys Johns, Gladys Becker, Marguerite Gross, Janet Bower, Mary Zent, Gladys Walker, Muriel Baxter, Grace E. Mungen, Eileen Loos, Katherine Archer, Clara Piepenbrink, Erma Dochterman, Helen L. Williams, Lorene Travers and the group of "guests" at the college cafe, including Dr. Noah Zehr, Dr. S. McClure, Sherwood Hinds, Leonard M. Bane, Dr. Herbert N. Szeszeny, Emmett Sorg, L. W. Duncan, Verne V. Mitchell, W. H. Sumler, Maurice H. Culner, W. F. Scheumann, Otto E. Fuelber, R. H. Fitch, King Muckley, Pearl Griffin, Katherine Archer, Mrs. Frank Hogan, Evelyn Plunadore, Mrs. Florenz J. Hale, Mrs. Eliza Elliott, Kathryn Thompson, Margaret Gutermuth, Clarence I. Nowlin, Mrs. Paul E. Johnson, Miss Clara Piepenbrink, Miss Marie Landenberger, Edna Fuelber, Erma Dochterman.

INJURED IN FALL

Mrs. W. G. Kaiser, residing at 725 Wildwood avenue, was injured Monday evening by tripping over a rug at the head of the stairway in her home. The injuries which consist of an injured hip, sprained wrist and a laceration on her right hand are very painful but not considered serious.

STRONGER MEN TAKE THE LEAD

They Have Nerves of Iron and
Real Red Fighting Blood

Vital force is the material from which leaders in all walks of life are made. It is well worth getting and holding.

The health and nerve of the athlete is what Nature intended every man and woman to have.

The blood of an athlete is pure and red, a strong heart pumps and drives it through his body. No wonder that every inch of his system is filled with energy and health, his nerves like iron, spirits high, hard tasks a pleasure and life one song of joy.

A leading doctor says, "If everyone should feel this way, that if you are not red blooded, are nervous, all run down and on your last legs, for you to build up your blood and nerves with exercise, fresh air, nourishing food and Nature's great prescription, Phosphated Iron, a real blood and nerve builder."

Then you will be the work that you push to easily do the work that you now do on your nerves alone.

He also says, "Phosphated Iron Nerve Blood Cells with Iron and Nerve force, and that succeeding specialists are now using it all over the country, that it has sprung into almost instant popularity with the better class of doctors as one of the few remedies they can depend on to produce results."

Special Notice—To insure physicians and their patients getting the genuine Phosphated Iron we put up in capsules only, so do not allow dealers to substitute any pills or tablets. For sale in Fort Wayne by Meyer Bros., four stores, also D. & N. Pharmacy—Advertisement.

No particulars other than that he was killed in a motorcycle accident were received. The body will be brought to this city today and taken to the home of his aunt, Mrs. William Kessler, of North Van Buren street, and the funeral services will be held Wednesday. The deceased was a resident of this city for a number of years, but has been living in Toledo where his mother conducted a boarding house.

B. F. Loomis, who failed to appear in court last Friday as a witness in the O. F. Garman vs. Bash Sanitary company, drew a fine of \$10.35 Monday for contempt of court. The plaintiff in the above named case paid the fine and Mr. Loomis was released. Sheriff Frank Raitz arrested Loomis at Huntington Tuesday.

AND THEN THEY LIVED HAPPILY EVER AFTER

Cause of Family Eruption
is Removed by Wed-
ding Ceremony.

A rather confusing police court case was given the happy "wedding bell" finale Tuesday morning by Police Judge Kerr. The principal cast was carried by Helen Kelly, who started the case when she demanded that her daughter leave the home of her prospective bridegroom and return home with her. She grew abusive in her demands, calling her future son-in-law's people rather uncomplimentary names. The wagon was called and she was taken to the lockup in order to enable her to cool down a little.

When questioned in court the daughter insisted that her home life was unbearable because of the pernicious habits of her mother, and that she had remained with her future husband's people for three days because she said she had been unable to get married on Monday, but that she fully intended to take the matrimonial vows Tuesday morning. This decision spared the court a lot of trouble, and gave the case a convenient ending.

Out for Two Hours.

John Ranski, a foreigner whose love for American liquor was too strong for him Monday, was released. Louis Johnson, who hesitated at the bar too long and missed the "five something car," was given a chance to make it Tuesday evening. W. Quinn, another drunk, was discharged. Alex Swartwood easily forgot his promises of good behavior Monday morning, and was arrested a few hours after his release. He drew the prize, getting \$15 and a new suit.

Made a nuisance of himself and a quart bottle of whiskey and was given \$20 and costs. John Luther was too drunk to appear and his case was continued until Wednesday.

Who Stole the Watch?

Robert Carter, colored, arrested on a charge of stealing a watch, refused to produce the stolen article, and as there was no other proof, save that the watch turned up missing at the same time that he did was released with a warning.

George Cook, another colored boy, who has been held in as a suspect to find out whether he was a draft age, was discharged. L. W. Miller, the Pennsylvania husky who connected with the eyes of the Palace night watchman, failed to appear and his bond of \$15 was therefore forfeited.

Auto Injures Boy.

William Hill, 1205 Maple avenue, reported to the police Monday evening that a man giving his name as Mr. Miller, South Calhoun street, ran into his son, William Hill, at the corner of Calhoun and Williams streets. Mr. Miller took the boy to a physician and afterwards brought him to his home. The lad was not seriously hurt.

C. E. Schroeder, 432 Wallace street, reported that a machine driven by W. P. Long, ran into his car at the corner of Lake avenue and Forest Park boulevard. Both machines were badly damaged, but neither party was hurt.

Has Pocketbook Stolen.

Mrs. A. King, 715 Broadway, reported to the police that her purse, containing a little over \$8, was stolen while she was trying on a coat in the Sault store Monday. She gave the description of two women who were seen about the place where the purse was lying, and an effort will be made to learn their identity.

A. Mull Files Suit.

A. B. Mull, tailor, has filed suit in the city court, asking judgment against Glen Coalloy for \$20 and the costs of proceedings. The plaintiff is represented by Andrew W. Perry.

RELIEVES WHEAT SHORTAGE.

New York, Oct. 23.—Material relief in the shortage of hard wheat is promised by the milling division of the federal food administration in a statement issued here today saying a considerable quantity of Canadian wheat owned by the Wheat Export company, a British government agency, and now moving down the lakes for export, is to be made available for grinding by mills in the United States.

DARKEN GRAY HAIR,
LOOK YOUNG, PRETTY

Sage Tea and Sulphur Darkens
So Naturally That No-
body Can Tell.

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. O. Grandmother made up a mixture of Sage Tea and Sulphur to keep her hair dark and beautiful, and that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe.

Nowadays we get the famous mixture improved by the addition of other ingredients by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just wash with a sponge or soft brush with this and a little sulphur, taking one small strand at a time. By morning the gray hair disappears; but what the ladies with Wyeth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite to impart color and a youthful appearance to the hair. It is not intended for the cure, mitigation or prevention of disease.—Advertisement.

DECISION ANNOUNCED IN THE WHITE CASE

Judge Link Finds That Mrs.
James B. White Has a
Valid Title.

The First National bank and other parties recovered judgment in the Allen circuit court against Edward White and James B. White on notes that James B. White gave security. Edward White had gone through bankruptcy and the bank had purchased all of his real estate, leaving him owing a debt to James B. White of some \$15,000. The First National bank and other judgment creditors holding judgments to the amount of about \$18,000 against James B. White, as surety for his brother Edward, brought suit to set aside conveyances of certain real estate to Mrs. James B. White and subject the real estate to the payment of their judgments. The cause was venued to the DeKalb circuit court and tried sometime ago, lasting a week or two, and Judge Link announced his decision a few days ago, holding that the bank and other plaintiffs were not entitled to recover and deciding in favor of Mrs. White that she held a valid title to all of the real estate she sought to reach and that it was not subject to the payment of any of the judgments, holding that she had good title to all of the real estate and had paid full consideration for it.

SCHOOL TRUSTEES ADOPT STUDY MEMORIAL

Board Pays Tribute to De-
parted School Of-
ficial.

The Fort Wayne board of school trustees has drawn up a resolution in honor of Justin N. Study, former superintendent of public schools, who died on August 29, 1917, as follows: Justin Nelson Study, for twenty-one years the superintendent of the public schools of Fort Wayne and our esteemed associate in the management of the school system of our city, reached the end of a long, useful and honorable life on the 29th day of August, 1917. We, the undersigned members of the school board, desire the records to show our great appreciation of his services to the people of Fort Wayne and our tribute to his personal and professional character.

Justin Nelson Study was born of American parents of sturdy Christian character with a love for the things that are pure and of good repute in this life and among them was their love of education and the Christian church. His early influences, therefore, laid the foundation for that purity of heart and that quickness of mind through which he won and held the respect and esteem of all with whom he ever came in contact. Now that he has left us and we realize the void, we know better than ever the sterling quality of his heart and the giant strength of his mind. We realize more than ever the splendid polish of his intellect and the profound depths of his knowledge his constant study had given him. No day passed without adding something to the wealth of his information. His mental habit was one of order and, therefore, what he laid the reason of his success as an educator and mold of the ideals of the young who came under his influence. It was a pleasure as well as an honor to be associated with him in his high calling.

As representatives of the educational interests of the city of Fort Wayne, we deplore the loss of his services, but it is a matter of pride to our people for more than a score of years. The city is to be congratulated that the schools had the benefit of his guiding hand so long. We believe it literally true that while he had passed the allotted score, the virtue powers of the years which men call the prime of life ripened but did not weaken in him as age crept on. As it takes a beautiful character to grow old gracefully, it is proof of a strong character far beyond the ordinary that one grows old in years without loss of the power and graces of his prime. Such a man was Justin Nelson Study.

We deeply sympathize with the wife and the daughters in their grievous loss. Their sorrow is profound but throughout life theirs will be the comfort that as husband and father no man ever measured to a higher stature. From whatever viewpoint the mind, heart and life of Justin Nelson Study may be studied, it will be found that he was a stalwart American gentleman, whose death was a heavy loss to his family, to his city and to his state.

The secretary of the board is instructed to spread this tribute on the records.

The memorandum was signed by A. L. Randall, president; E. W. Cook, secretary, and W. H. Shambaugh, treasurer.

Garfield pleads with coal barons

Appeals to Patriotism, But
Warns That More Coal
Must Come Out.

Pittsburg, Oct. 23.—Harry A. Garfield, national fuel administrator, addressing coal producers from every field in the country here today, pleaded for leaders of the industry to lay aside all differences and get behind President Wilson in the fight against Germany. Mr. Garfield conferred with Joseph F. Guffy, national petroleum administrator, W. K. Field, president of the National Coal association, and David W. Ross, Pittsburg fuel director, before addressing the operators.

Mr. Garfield made no reference in his address to any possible increase in coal prices by the government or the demands of miners for increased wages.

He said:

"So long as President Wilson gives power to the fuel administrator, I shall proceed to gather information throughout the country and distribute it to those interested in the industry. I propose to produce fuel for the home and factory in greater quantity than ever.

"I want you to set aside your competitive differences, make monetary sacrifices and stand behind the president in this time of emergency."

GAS IN INDIANA TO
RETAIN ITS QUALITY

Petition to Reduce Heat
Units Has Been Dis-
missed by Board.

Indianapolis, Oct. 23.—The petition filed by the Indiana Gas association asking permission on behalf all companies supplying artificial gas in this state to reduce the standard of heat units was dismissed today by the Indiana public service commission. The petition asked authority to reduce the units from 600 thermal units to 550. It was said the company desired to make the reduction in order that they might extract certain chemical elements in the process of making gas which might be used in munition making. Although that would have meant an added income to the companies it was pointed out there had been no request to reduce rates to the gas consumers. A conference recently was held in Washington at which the reduction of the heat units in gas was discussed. Since then the decision to dismiss the petition was reached, it was said.

FAMILY QUARREL AT BIER OF PUGILIST

GERMANS GET HEAVY BLOWS

(Continued From Page 1.)

the fighting says that the Russian units fought excellently against the superiority of the Germans.

The official statement reads:

"During October 21, important enemy forces, together with transports, were sighted by our outposts in the Gulf of Riga. In the afternoon the enemy seemed to be clearing the water of obstacles which we laid down. There was no naval action during the day, but enemy submarines were discovered in the Gulf of Finland.

"As the naval operations in the Baltic have now ended, it is possible to review them. The task of our fleet in this region, was with the organized position of Moon sound as a base, to prevent enemy attempts to seize the Gulf of Riga and Moon sound. So long as the German fleet only employed in such an operation elements of minor importance, as in 1913, namely, two dreadnaughts, our naval forces could cope with them.

Previous Attacks.

"In 1915, although our position in Moon sound was organized incompletely, we repulsed successfully all attacks and the enemy during three days possession of the Gulf of Riga suffered losses so grave that he was obliged to depart. A similar attempt in 1916 with unimportant forces failed completely. In the recent operations the enemy employed the major part of its fleet and his overwhelming superiority enabled him to carry out embarkation rapidly and successfully. Our fleet only was able to do its best to hinder these efforts and to inflict maximum losses. With this object we delivered a series of attacks, using all the naval resources in our possession.

Enemy Losses Heavy.

"As a result of these operations the enemy lost through mines, submarine attacks and other means, twelve torpedo boats, one transport and numerous mine sweepers, all of which were put out of action. Their ultimate fate is unknown. We have established the loss of only six enemy torpedo boats, two of which were of the small type and were sunk by gun fire from our position on Moon island. The other torpedo boats were sunk in combats or blown up by mines. The wreck of the torpedo boat T-69 is visible on a sand bank in Kassar bay. Further our coast batteries sank four enemy torpedo boats.

"Our losses are the ship of the line *Slava* and a large torpedo boat destroyed by the German type. The efficiency of our other ships has been maintained completely."

German torpedo boats of the T-69 class were built in 1911; displaced 145 tons, and had a complement of sixteen men. They are 154 feet in length. The Russian battleship *Slava*, whose loss has been reported previously, displaced 13,516 tons. She had a complement of 825 men and was 370 feet in length. The Russian destroyers of the *Grom* type were built in 1911 and displaced 1,110 tons. They had a complement of ninety-three men and a length of 321 feet.

good progress and we took a number of prisoners.

"Northwest of Ithelus there was rather heavy artillery fighting in the night. Three surprise attacks against our main posts west of Heterocourt and east of Neuville were without result.

"In the Argonne an incursion into German trenches at Cheppy, would enable us to inflict losses on the enemy and bring back prisoners.

"On the right bank of the Meuse (Verdun front) the artillery action became violent late in the night in the region north of hill 444."

GERMANS DRIVEN BACK.

Petrograd, Oct. 23.—The Germans have made an attempt at a second landing on the Estonian coast. The war office announces that they were driven away by the Russians.

An attempt was made near Mosokli manor, eight miles north of Werder, on the Estonian coast (The landing of German troops reported yesterday by the Russian war office was effected on the Werder peninsula). No naval engagement occurred in connection with this maneuver. German warships were observed off Kallast, Moon Island. The Germans have evacuated more trenches on the northern end of the battle front. They were occupied by the Russians. Trenches in the sector north of Hinzberg manor were taken by the Russian after an engagement.

GERMANS MAKE GAIN.

London, Oct. 23.—The Germans last night attacked one of the newly captured British positions in Flanders and forced back the troops holding it, the war office announces. Elsewhere the British gains of yesterday have been maintained.

VON KUEHLMANN IN VIENNA.

Amsterdam, Oct. 23.—Dr. von Kuehlmann, the German foreign minister, according to a dispatch from Vienna, arrived there yesterday and had two long conferences with Count Czernin, the Austro-Hungarian foreign minister. He returned to Berlin in the evening.

BOTH JUDGES WILL SPEAK

notwithstanding the downpour of rain, in addition to the address by Mr. Niezer, Judge Carl Yapple, Guy Cole-rick, H. L. Somers and several of the democratic candidates spoke.

At Lakeside School.

William Freuchtenicht presided at the meeting at the Lakeside school. Mr. Niezer spoke in part as follows:

"Conscious that the municipal policies for which I stand in this campaign are the best for the interests of the people, and the good name of this city, I have presented and intend to continue my present position openly and fairly. There are no sinister or selfish interests back of my campaign. I am not looking for the support of those who have a selfish interest to serve. If I cannot be the mayor of this city, and a servant of the people of this city, and free to protect their immense municipal properties, I do not want to succeed in this campaign. I will resent the influence of any selfish or sinister interest against me. The issue of this campaign involves municipal government and municipal policies, the character of the property of this city and the development and beautification of this city—involve everything that will give Fort Wayne a fair name and standing among her sister municipalities. We have a right to resent the attempts of those who seek to inject into the campaign the influence of institutions, or issues foreign to municipal government and the affairs of Fort Wayne.

Explains the Reason.

The reason that the people of Fort Wayne at the present time have not a 6 cent rate for lighting is because the utility commission of Indiana refuses to grant the petition of the city for reduction of the rate. If the municipal lighting plant of this city can furnish municipal light to its citizens for 6 cents why should that plant, the property of the people, not be permitted to give the people the advantage of the reduction? I believe that the law should be changed so that municipally owned properties—properties owned by the people—have the right to serve the people to the people's best advantage and not be handicapped by the selfishness or inefficiency of competing institutions. It is quite ridiculous that the people of this city cannot reap the advantages from their lighting plant, which that lighting plant, by reason of its resources, can give them.

Favors Flood Prevention.

The question of flood prevention is directly related to the problem of beautifying this city. As I have previously stated, I stand for the development of the parks and playgrounds of this city and for the beautification of the rivers, and flood prevention, in accordance with the demands and growth of the city and the necessity of protecting the property of the people.

John C. Hoffman, candidate for city judge, Charles H. Young, candidate for commonwealth-at-large, and Jacob Hartman, candidate for commonwealth at large, spoke briefly at Lakeside school and Frank J. Schiebele, candidate for commonwealth, and Otto W. Koenig, candidate for clerk, spoke at the meeting in the Second ward.

MANY HERE FOR MEETING

terms, her recent appeal before the supreme court of Indiana in the interests of the suffrage law and that she has been at work in the interests of women every day for many months. Mrs. Moore has been corresponding secretary of the federation for two years and has served most faithfully. She also presents many splendid qualifications for the office.

There is evident a desire to have elected to office those who can be of the most benefit to the federation, as the usual conditions that confront all women's organizations in the country are such as to demand the strongest leadership possible. The aim of the federation is to add five thousand to its membership during the next year. There are 455 clubs affiliated with this state organization of women and during the second year of Mrs. Fairbank's services as the highest officer, there have been added forty-four more clubs.

A splendid program has been arranged for the convention by Mrs. James M. Fowler, of Lafayette, and will be carried out with few, if any, changes.

Exhibits Ready.

Two beautiful exhibits were ready by noon Tuesday. One in the balcony is remarkable for its beauty and consists of etchings and water colors of the sand dunes of Indiana. Earl Reed, of Chicago, etcher, has sent fifty etchings that are bound to excite attention and admiration from all lovers of art. The water colors are also lovely and the work of Mrs. Flora J. McCull, of Chicago. These pictures are for sale, a fact that will be a satisfaction to very probable purchasers.

The exhibit of the blind is already attracting much attention in an adjoining room to the hall, where sessions in general are held. This exhibit excels any previous exhibit of the blind held in this city. An exhibit of work of the vocation school of Fort Wayne is to occupy a prominent place also.

Program for Tuesday Evening.

The formal opening of the convention will be held at 8 o'clock this evening at the Anthony hotel. In place of Mrs. C. R. Fairbank, president of the federation, Mrs. A. E. Pauve, president of the Woman's Club league, will preside and after an invocation by Rev. Arthur J. Folsom, will give the welcoming address. Mrs. E. C. Rumpel, of Indianapolis, first vice president of the federation, will respond. Following an address by Mrs. Josiah Evans Cowles, president of General Federation of Clubs, of Los Angeles, Cal., takes place a musical recital under the auspices of the Morning Musical society, arranged by Mrs. Clara Zollars-Bond, who is state chairman of the music department. After the program an informal get-acquainted reception will be held. The ladies in charge of the reception are Mesdames B. Paul Mossman, Mrs. Ferd Urbahn, Mrs. C. A. Stockbridge, Mrs. Guy Mahurin, Mrs. I. N. Shorey, Miss Margaret Boney, Mrs. Elizabeth Shier, Mrs. A. T. Johns, Mrs. Joseph Baum, Mrs. William M. W. Arber, Mrs. William M. W. Charles Lang, Mrs. Robert Harding, Mrs. Keturah Williams, Mrs. Fred Shoff, Mrs. W. W. Knight, Mrs. P. H. Dixon, Mrs. R. A. Magee, Mrs. C.

S. Ridenour, Mrs. C. H. Worden, Mrs. Richard Blossom, Mrs. M. B. Fisher, Mrs. G. W. McCaskey, Mrs. J. P. Martin, Mrs. Jules Simon, Mrs. Lora Walton, Mrs. Stover. Many of the special speakers and the larger number of delegates will be present and the public is invited to the musical and reception, as well as to all meetings of the federation. Mrs. C. A. Horton, harpist, and Wilbur Pickett, violinist, will play during the reception. No refreshments will be served.

Officers and District Chairmen.

Nearly every officer and district chairman has arrived for the convention and everything is moving with a punctuality and disposition of business that makes emphatic the executive ability of these intellectual women of the state and indicates their usefulness. The officers of the Indiana federation at present are:

President—Mrs. Carolyn R. Fairbank, Fort Wayne.

First Vice President—Mrs. E. C. Rumpel, Indianapolis.

Second Vice President—Mrs. William W. Reed, Warsaw.

Recording Secretary—Mrs. Winfield Scott Johnson, Bloomington.

Corresponding Secretary—Mrs. John Edward Moore, Kokomo.

Treasurer—Mrs. William A. Morris, Frankfort.

Auditor—Mrs. A. T. Cox, East Chicago.

General Federation Secretary—Mrs. Elizabeth Clappell Earl, Connersville.

Trustees—Mrs. S. E. Perkins, Indianapolis; Mrs. Virginia C. Meredith, Lafayette; Mrs. James P. Goodrich, Indianapolis.

District Chairmen—First district, Mrs. David Rosenbaum, Mt. Vernon; second district, Mrs. O. M. Williams, Mooresville; third district, Mrs. J. H. Taggart, Orleans; fourth district, Mrs. Fannie Rabb Green, Rising Sun; fifth district, Mrs. Joseph E. Previtt, Plainfield; sixth district, Mrs. Guy Ambrose, Rushville; seventh district, Mrs. Ralph Kennington, Indianapolis; eighth district, Mrs. Imogene Taft Lesh, Muncie; ninth district, Mrs. Sam Matthews, Tipton; tenth district, Mrs. J. C. Gibbs, Crown Point; eleventh district, Mrs. James Wilson, Wabash; twelfth district, Mrs. William Ballou, Lagrange; thirteenth district, Mrs. W. O. Vallette, Goschen.

Notes of the Convention.

Miss M. Williamson, editor of Social Service Review, Washington, D. C., and delegate at large for the Woman's National Press association and a member of the League of American Pen Women, arrived this morning to attend the Indiana Federation of clubs. Miss Williamson is stopping at the Anthony.

Mrs. James M. Fowler, of Lafayette, who arranged the program for the convention, has many Fort Wayne friends, as she was the organizer of Mary Penrose Wayne chapter, D. A. R., and has been a guest in the city several times.

No half day sessions of the convention are likely to be more important or interesting than those of Wednesday afternoon when at 1 o'clock there will be a meeting of the conservation department, with round table led by Mrs. L. S. Fickenschner, chairman, and a meeting at 4 o'clock of the home economics and food sanitation department, at which time it is expected Dr. H. E. Barnard, food deputy for the state under the direction of Mr. Hoover, will be present.

Ellis Seavles, at one time a Fort Wayne newspaper man, is attending the convention in the interests of the Indianapolis News.

Moore hall presents a very attractive appearance with a decoration of artificial hick foliage and several American flags. An accident of fire in the hall a day or two ago, which destroyed some plush hangings, was much of a blow to the Order of Moose, as the committee appointed had a decoration of richer effect that had been arranged complimentary to the Woman's Club league and convention visitors.

Mrs. A. E. Pauve has as her house guests Mrs. F. H. Downey, of Churubusco, who is state chairman of the press department of the federation, and Miss Clara Gilbert, of Kendallville, one of the best known club women in the northern part of the state.

Mrs. C. R. Fairbank, who has served as president of the federation for two years with much devoted service and efficiency, is spending this week at the Anthony hotel, where she can be seen at her room. Mrs. Fairbank is not able to attend any of the meetings of the convention.

All confusion as to seating of delegates is done away with now by having delegates locate themselves by ballot. Mrs. E. M. Wilson had charge of the ballot box and direction to location of seats at 4 o'clock this afternoon.

A large attendance of delegates is expected to be present at the banquet at the Anthony hotel on Wednesday evening at 6:30 o'clock. There will be a musical program and important speakers.

Telephone No. 4293 reaches the convention hall during the progress of the meetings.

NATION AND STATE AFFAIR TO AID THE SALE OF WAR BONDS

(Continued From Page 1.)

would be reached although they thought the sum might possibly be taken by an eleventh hour avalanche of subscription.

"Conviction is felt in many quarters," the treasury department announced, "that the \$3,000,000,000 mark can be reached by tomorrow night."

Solicitors, spurred on by their failure the first day of the last week of the campaign began anew today with intensified determination. It was thought that if the loan total subscriptions could be brought by tonight up to approximately \$2,500,000,000 or \$500,000,000 more there is in sight at present there might be a chance to reach the \$3,000,000,000 mark tomorrow night, the close of Liberty day.

"Liberty day returns, heads of some district committees believed, may reach \$1,000,000,000. If they approximate sixty per cent of this sum they probably will send the total for the drive above three billion."

Indications pointed more and more officials said to the conclusion that only a tremendous response by the entire nation with hundreds of thousands of small subscribers and many large subscribers should bring the total anywhere near the maximum quota.

Among subscriptions reported today was one of \$10,000 from inmates of the West Virginia state penitentiary. Cash was paid for these bonds. This was the largest subscription reported from any penal institution.

NOT LOOKING SO BAD.

Chicago, Ill., Oct. 23.—Campaign managers for the second Liberty Loan analyzing reports today from the Seventh federal reserve district declared themselves not pessimistic over the number of sales but expressed some anxiety over final results. With the finish only five days off reports indicated sales of \$185,320,900 which represented 26.6 per cent of the maximum allotment of \$700,000,000 for the district. Workers were urged today to renew their efforts as the last three days have shown a slump after a week of record-breaking sales.

LOCAL BOYS ARE PROMOTED

zeants; Privates A. W. Miller and George Flagg, first class privates; Corporal Theodore Stroufe, Privates Thomas P. Ewing, Otto W. Pohlmeyer and Roy C. Hill, sergeants; Privates Harry Weisbrock, Adolph Keller and Edward T. Baughman, corporals, and Private Robert H. Sommers, corporal.

The 17th battalion is now well supplied with officers, having twenty-seven more than required. There are now five officers for the 65th company; seven officers for the 66th; five for the 67th, and five for the 68th. These officers came to the various organizations Monday from the Nineteenth battalion but it is rumored that the surplus ones will again be transferred.

In the group of officers who were transferred to this battalion was Lieutenant Clem J. Stegmeyer, formerly a newspaper man of Fort Wayne and well known there.

Officers Are Liked.

The men who were transferred from the Seventeenth battalion to the Engineer corps are under the command of Lieut. Otto Gumpert, also of Fort Wayne. The men state that they are much attached to their officers and are well satisfied with their work. The men in this organization are now learning how to the thirty different kinds of knots which are used in the construction of bridges.

The Seventeenth battalion was issued seven horses last week. These horses will be used as mounts. Those in the organization who will receive a mount are: Capt. Fred W. Eggeman, acting battalion commander; Lieut. Austin Landreth, battalion adjutant; Lieut. J. G. Carter, battalion supply officer; Sergt. Mal. E. F. Fruechte, two orderlies and the battalion supply sergeant, who will rank as a sergeant major. This office will be filled within the next week or ten days, it is thought.

The horses are all of exceptionally good variety and although a few of them are prone to be somewhat "foxy," it is believed that the Seventeenth battalion will also carry honors in the appearance of the horses used for mounts.

Officers and men alike of the entire battalion were most pleased to hear that Miss Irene Robyns was to give a benefit performance at the Majestic theater on Thursday evening, October 25, for the good of the Fort Wayne boys here at this camp. These funds will surely be greatly appreciated and will go to help make the boys who are here in training feel more home-like. It can be said from a soldier's standpoint of view that small and large favors of this kind will never be forgotten by the recipient when he is in the army. Success is wished for the event and it is the opinion of the personnel of the entire organization that this performance warrants the public's patronage.

When the "Boys" Left.

Last Thursday was a sad day in Camp Taylor for the various companies of the Seventeenth battalion. Wednesday evening came the order that 250 men were to be transferred to Hattiesburg, Miss. A previous order had stated that all non-commissioned officers would be retained, which meant that practically every recruit and private would be transferred.

Thursday morning the men who were to leave were notified. It was with regret that the officers had to notify the men that they were to leave. The men themselves received the news with regret, but yet departed brave at heart.

The men were asked to pack their equipment and at 1 o'clock were lined up in front of the barracks in alphabetical order. There was much shouting and "hurrahing" at this

place and all apparently were having a good time.

The order was given to march and on the way to the train the men talked in subdued tones. Awaiting entrainment there was less noise and the men who were to depart as well as the men who remained, were seen in thoughtful silence. The officers had but little to say themselves.

When the train pulled away there was but little waving of hats and but little noise.

The men as a whole had drifted and worked faithfully towards one end, that was towards becoming the crack organization in camp. They were well on their way to the attainment of this ideal, as was evidenced in the expression of the colonel of the group, following inspection.

It was on this account and also on the account of losing the company of their non-commissioned and commissioned officers that the men felt a trifle downcast upon leaving.

Was "Some Bunch of Fellows."

"It was some bunch of fellows," was a common expression heard after their departure. And the expression itself does not tell half of the caliber of the young men that were in the various companies. It can truthfully be said that there had never been a fight nor even a harsh word spoken between any of the members of the companies and a lasting friendship had arisen. And the idea of being broken asunder was the starting of the heavy lump that clung to many of the men's throats when they waved farewell.

Sunday found the following people visitors in the camp: Mr. and Mrs. Robyns, Mr. and Mrs. Wise and son, Mrs. William Vesey, Mr. and Mrs. A. Vesey, Mr. and Mrs. Kennedy, Mr. and Mrs. J. V. Stouder.

SUMMARY OF THE DAY'S WAR NEWS

(Continued From Page 1.)

At only one point in the southern part of Houtholst wood, were the Germans able to regain any ground in counter attacks, and here it was only a single British post that was pushed back a short distance. The ground won was consolidated along the remainder of the front.

On the eastern front the attempted German operations on the Estonian mainland, north of the gulf of Riga, apparently have not progressed as favorably as the naval prelude and the fighting for possession of the outlying islands. Petrograd reports that an effort by the Germans to effect a second landing on the coast about eight miles north of Werder, where they first put troops ashore, was frustrated by the Russians.

Fifteen German fighting ships, including two dreadnaughts, were put out of action by the Russians during the action last week in and around the islands at the head of the Gulf of Riga. The Russian admiralty says the ultimate fate of the larger ships is not known, but that it has been established the Germans lost at least six torpedo boats.

The overwhelming superiority of the German naval forces told, however, and the Russians were forced to retire with their units intact except for the battleship *Slava* and a large destroyer. The Russians are now protecting the southern entrance to the Gulf of Finland, where it is reported German submarines were observed Sunday.

Oesel, Moon and Dago islands are now completely in the possession of the Germans, who claim also the capture of 20,000 prisoners, 100 guns and war material. The Germans also have reached the mainland of Esthonia on the Werder peninsula which juts into Moon sound opposite Moon island.

An unofficial report from Stockholm says the Germans have gathered a large number of submarines and destroyers in the waters around eastern Denmark in anticipation of an attempt by an entente fleet to force its way into the Baltic to aid the Russians.

Minor operations undertaken by the French and British yesterday from Poelcapelle northward to the Houtholst forest were most successful. Heavy casualties were inflicted on the Germans and Field Marshal Haig reports the capture of 200 prisoners.

A Terrible Threat.

Reprisals were threatened in an official German communication which in part reads:

"For every brick which falls from peaceful German homes, whole rows of buildings will be overthrown in Paris. The official French report on the attempted German raid reads as follows: "The first Zeppelin brought down fell at St. Cloud, ten kilometers from Neuveville. It was seen at 6:20 a. m.

THE MARKETS

BAD WEATHER HOLDS DOWN CITY MARKET

No Grain Received at City Scales—Farmers Stay at Home.

Tuesday morning's pre-season flurry of snow and damp weather had a noticeable effect on Fort Wayne markets. The farmers, like many of the city folk, no doubt found the fireless very comfortable and cheery and did not appear at their accustomed stalls in the city market. There were only a few brave vendors present and not a large variety of produce to choose from, and what was still more impressive there were but a few who braved the weather long enough to visit the market.

At the city scales no grains were received, but a quantity of potatoes were bought. Prices ranged the same as Saturday at all markets.

PRICE CURBS GIVE CORN HARD SETBACK

Chicago Market Turns Weak in Prospect of New Restrictions.

Chicago, Oct. 22.—Weakness manifested itself in the corn market today owing to prospects of new anti-high price restrictions on trading. Opening quotations, which ranged from 1 1/2¢ lower to 1¢ advance, with December at \$1.15 1/4@1.17, and May, 1 1/4¢@1.16 1/4, were followed by a setback all around and then something of a rally.

Quotations closed yesterday at \$1.15 1/4 to \$1.15 1/2; December and \$1.10 1/4 to \$1.10 1/2; May, 1 1/4¢ decline to 1 1/4¢ gain as compared with yesterday's finish.

Oats eased down with corn. Sharp breaks in provisions were ascribed to the weakness of the corn market.

RAILS ADVANCE ON COMMERCE DECISION

Prices Go Up on the Stock Market, But Gains Are Not Held.

New York, Oct. 22.—Rails were the strong features of today's early dealings on the stock exchange, advancing from large fractions to more than a point on the decision of the Interstate commerce commission to reopen the hearing of the eastern railroads for higher rates. U. S. Steel also gained a point. Motors and a few specialties were hesitant or reactionary.

Liberty 3 1/4's were again taken in round amounts at 99.72.

Prices became more uneven late on the further heaviness of utilities and their trend of speculative favorites. Active equipments moved in the same erratic manner and rails parted with much of their initial gains.

Liberty bonds hardened at 88.72 to 99.78.

SKINNEY! BETTER BE CAREFUL ON HALLOWEEN

Oh-o-o! Skinny, better look out Halloween night!

Police Chief Lenz is starting early in warning the youth of Fort Wayne that all Saints eve is not for destruction of property and lawless vandalism. "I am for the boys. That is why I am taking the precaution to tell them to be orderly in their merry making on Halloween," said Chief Lenz in issuing his first Halloween order, Tuesday. "I would rather they would be put on their guard and not have to be sorry afterwards."

Police are ordered to add to their vigilance in anticipation of the pre-Halloween spirit which sometimes makes itself manifest in the city. All persons who disregard property rights will be brought to police headquarters.

SNOWFALL WILL HELP SUBURBAN DAY TRADE

Brings Realization That Winter is Close Upon Us — Plans for Tomorrow.

The snowfall of this morning brings the assurance that the buying of winter apparel and supplies can be no longer delayed, and an examination of the advertising columns of The Sentinel today is convincing proof that the merchants of Fort Wayne are amply prepared to meet the needs of all in the broad region of which Fort Wayne is the trade center. Following quickly upon the day of the first real snowfall comes Suburban day—tomorrow—and most of the great price opportunities shown in today's paper are designed to meet the seasonal needs of those who come for the great weekly trade event. Not only are the Suburban day visitors invited to examine carefully all of the advertisements of the special offering for tomorrow but every citizen of Fort Wayne will be permitted to take advantage of these most appealing prices and values. Many of the stores are unable to publish a list of their great array of "specials," but their stores are filled with them, and in many cases, these specials are so designated as to make the whole interior one great autumn-winter exposition of seasonal, war-time merchandise.

Convention Brings Many.
The state convention of the Federation of Women's Clubs in session here this week, will add to the number of Suburban day shoppers, as large delegations are here from the nearby cities and towns who have been fully aware of the great
